PREFACE

Reading is the cornerstone of learning, yet it remains one of the most pressing challenges in education today. In response, the Division of **Bukidnon proudly introduces Bukidnon's Unified Literacy and Intervention Gateway (BULIG)** — a transformative innovation designed to improve learners' reading ability and empower every child to succeed.

Aligned with this vision, the Division of Bukidnon also implements the **ARAL Program (Accelerated Learning)**, a national initiative that reinforces learning recovery and remediation. Through ARAL, learners who struggle with foundational skills receive focused support in reading and numeracy, complementing BULIG's mission to create a strong literacy foundation. Together, these programs form a comprehensive approach to address learning gaps and ensure that every child has the tools to thrive academically.

BULIG is more than a program; it is a unified movement for literacy, built on collaboration, evidence-based strategies, and a deep commitment to equity in education. This initiative bridges gaps in reading proficiency by providing targeted interventions, innovative approaches, and sustainable support systems that cater to the diverse needs of learners across the division.

Through BULIG, we envision classrooms where every learner reads with confidence, comprehends with clarity, and learns with purpose. This gateway opens opportunities for lifelong learning, ensuring that no child is left behind in the journey toward academic excellence and personal growth.

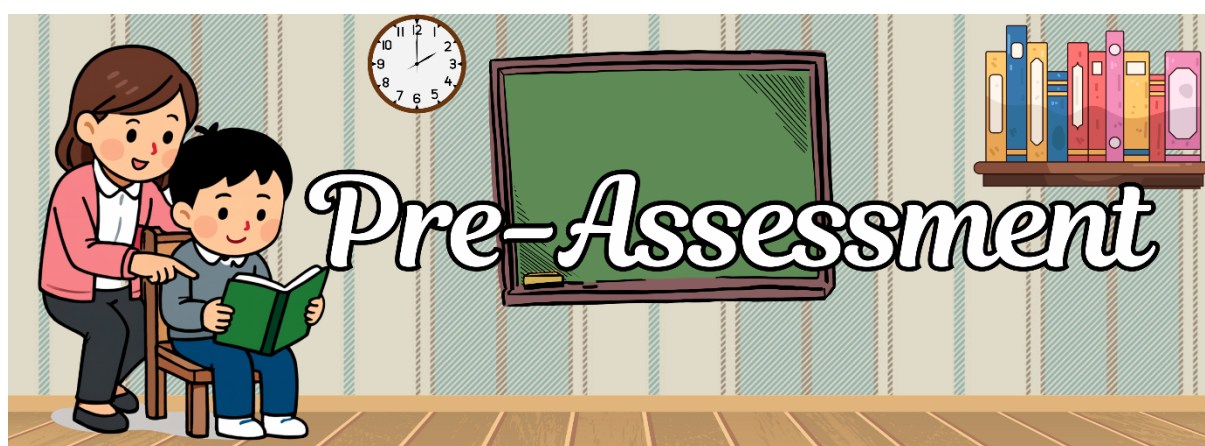

Together, let us make literacy not just a goal, but a reality for all.

THE HORSE AND SNAIL

One morning the horse and the snail met. The horse made fun of how the snail walked. This made the snail very angry. He decided to run a race with the horse.

The snail walked slowly. But walked and walked. He did not look back.

The horse laughed. He could easily beat the snail, the horse thought. He ran for a while. He saw the snail far behind him. He rested under a mango tree. Soon he fell asleep.

The snail walked past the horse. He did not rest.

When the horse woke up, he ran as fast as he could. But the snail was the first at the finish line. (115 words)

THE KINGFISHER AND THE CAT

One fine morning, a kingfisher sat on a branch of a tree. She was busy eating a fresh fish which she caught in the river.

A hungry cat ran under the tree and asked a piece of it. The kingfisher did not want to share the fish.

The cat was very hungry so she thought of a way to get the fish from the kingfisher. She asked the kingfisher to sing.

The silly kingfisher could not sing at all. But she was so flattered that she opened her mouth and tried. Of course, she dropped the fish.

The cat gulped it down hurriedly. Then she ran away laughing.

A DREAM THAT BECAME A REALITY

For many, many years, people had always dreamed of going to the moon. This seemed impossible because the moon is very far from Earth.

Not even the biggest, fastest and most powerful airplane could ever reach the moon.

Then, very powerful rocket ships were made. These rocket ships could travel fast enough to escape the earth's gravity, withstand the sun's heat and land on the moon.

On July 20, 1969, an almost impossible dream came true. Neil Armstrong, together with two other American astronauts, made a trip to the moon aboard Apollo 11, a spacecraft.

Neil Armstrong became the very first man to land on the moon.

THE ANT AND THE GRASSHOPPER

The ant and the grasshopper were good friends. The ant was industrious but the grasshopper was lazy. While the ant was busy storing food for the rainy days, the grasshopper did nothing all day but sing and play.

When the rain came, the lazy grasshopper shivered with the cold and hunger. He went to the ant's house and begged for some food. The ant gave him food but he kept on coming back for more.

The ant lost her patience and said, "You did nothing but sing and play during the sunny days. Now you can sing and play in the rain. I have nothing more to give you"

A MEDAL ON THE BARONG FILIPINO

Manuel is a young artist. He is good in drawing almost anything. Some of his works have been shown at school exhibit.

One day, he joined an art contest. His painting won the first prize.

He was invited to attend a program where he would be given the prize.

One of his friends said, "In this program you will be given a medal. It will be nice to wear coat and tie."

"What? Wear coat and tie for that medal? I'm going to wear a Barong Filipino. The Barong Filipino is just as good as any other clothes for a medal of honor."

The medal was pinned on Manuel's Barong Filipino.

HOW TO COMPUTE SPEED RATE

Speed Rate Formula

- Time Consumed (in minutes) = Time Finished – Time Started, then convert the result to minutes.
- Speed Rate (words per minute) = Number of words in the passage ÷ Time Consumed (in minutes).

Sample:

<u>9:00</u>	<u>9:01:30</u>	<u>1:30</u>
TIME STARTED	TIME FINISHED	TIME CONSUMED

Example Time consumed in Minutes:

1 minute 30 seconds → $1 + 30 \div 60 = 1.5$ 1 + 30 ÷ 60 = **1.5 minutes**

<u>100 WORDS</u>	<u>66.66</u>	<u>Needs Intervention</u>
1.5 MINUTES	SPEED RATE	GRADE

Speed Rate Grade 4 Level

- Needs Intervention: below 70 WPM
- Developing: 70–110 WPM
- Proficient: 111–139 WPM
- Advanced: 140 WPM and above
