PREFACE

Reading is the cornerstone of learning, yet it remains one of the most pressing challenges in education today. In response, the Division of Bukidnon proudly introduces **Bukidnon's Unified Literacy and Intervention Gateway (BULIG)** — a transformative innovation designed to improve learners' reading ability and empower every child to succeed.

BULIG is more than a program; it is a unified movement for literacy, built on collaboration, evidence-based strategies, and a deep commitment to equity in education. This initiative bridges gaps in reading proficiency by providing targeted interventions, innovative approaches, and sustainable support systems that cater to the diverse needs of learners across the division.

Anchored on this vision, the Division of Bukidnon integrates the ARAL Program (Academic Recovery and Accessible Learning), a national initiative focused on learning recovery and remediation. ARAL provides structured and learner-centered interventions for those struggling with foundational skills in reading and numeracy. By complementing BULIG's mission, ARAL strengthens the division's comprehensive approach to literacy, ensuring that learners overcome difficulties and gain the confidence to succeed academically. Together, these programs create a powerful synergy that accelerates learning recovery and builds a strong foundation for lifelong learning.

Through BULIG, we envision classrooms where every learner reads with confidence, comprehends with clarity, and learns with purpose. This gateway opens opportunities for lifelong learning, ensuring that no child is left behind in the journey toward academic excellence and personal growth.

Together, let us make literacy not just a goal, but a reality for all.
