PREFACE

Reading is the cornerstone of learning, yet it remains one of the most pressing challenges in education today. In response, the Division of **Bukidnon proudly introduces Bukidnon's Unified Literacy and Intervention Gateway (BULIG) —** a transformative innovation designed to improve learners' reading ability and empower every child to succeed.

BULIG is more than a program; it is a unified movement for literacy, built on collaboration, evidence-based strategies, and a deep commitment to equity in education. This initiative bridges gaps in reading proficiency by providing targeted interventions, innovative approaches, and sustainable support systems that cater to the diverse needs of learners across the division.

Anchored on this vision, the Division of Bukidnon integrates the ARAL Program (Academic Recovery and Accessible Learning), a national initiative focused on learning recovery and remediation. ARAL provides structured and learner-centered interventions for those struggling with foundational skills in reading and numeracy. By complementing BULIG's mission, ARAL strengthens the division's comprehensive approach to literacy, ensuring that learners overcome difficulties and gain the confidence to succeed academically. Together, these programs create a powerful synergy that accelerates learning recovery and builds a strong foundation for lifelong learning.

Through BULIG, we envision classrooms where every learner reads with confidence, comprehends with clarity, and learns with purpose. This gateway opens opportunities for lifelong learning, ensuring that no child is left behind in the journey toward academic excellence and personal growth.

Together, let us make literacy not just a goal, but a reality for all.

Activity 1

Instructions: Write a news story of 5 to 7 paragraphs using the structure below. The scrambled information is attached below.

Scrambled Facts and Information

- An announcement was made by the School Principal Dr. Mary Jean M. Francisquete on Monday that a new program will be implemented by the school.
- The Special Program in Journalism (SPJ) will be implemented by Badas National High School for School Year 2021-2022.
- After the implementation, the school is expected to receive equipment and facilities related to the resources needed for SPJ.
- "We are happy that SPJ will be implemented in Badas NHS because it will give our children the chance to be better writers and journalists in the future," Linda Jesus, one of the parents said.
- The aim of implementing the program is to offer journalism competencies to cater the journalistic skills of students in the school.
- Francisquete said that the SPJ implementation became a reality after parents and other stakeholders wrote a letter to the school to open the said program.
- "We want to give our students the chance to hone their writing skills and abilities in journalism and also make sure that we can influence them to love writing," Francisquete said.

THE LEAD. (Who did what; or What happened? Perhaps When? and Where? might be in this paragraph.)

_____

_____

_____

_____

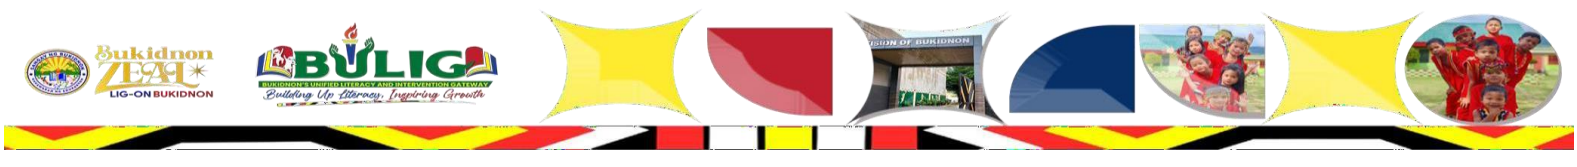

_____

_____

2ND PARAGRAPH (In many cases this second paragraph will answer the questions Why? or How?)

_____

_____

3RD PARAGRAPH (This is where a quote would often appear. This is viewed by most reporters as essential to keep the story lively.)

4TH PARAGRAPH (Why are you telling me this/what are the implications of this? (significance))

5TH PARAGRAPH (What will other people think about this? (Moving the story on, giving it a human context)

6TH PARAGRAPH (How did the event continue? (Important background)

7TH PARAGRAPH (What is going to happen next? (Again, moving the story on, significance)

Activity 2

Instructions: Write a news article based on the following facts.

What: 1. government troops on the hunt for Abu Sayyaf chieftain Khadaffy Janjalani and the alleged masterminds of the 2002 Bali bombings clashed with a group of bandits.

2. three marines were injured after the incident

Where: in the Southern island province of Sulu

When : on Friday

This was according to military reports.

Supporting details:

Lieutenant Colonel Arnel Caculitan - Marines spokesman. Around 11:30 am, troops from the 7th Marine Battalion clashed with some 40 Abu Sayyaf members. The clash happened in Danag Village. This was in Patikul town. This was according to Caculitan.

Caculitan further said that the Abu Sayyaf suffered casualties. He cannot give exact figure. He also said that He could not easily ascertain if Janjalani and two other Jemaah Islamiyah bomb experts Dulmatin and Omar Patik were with the group that engaged with the marines.

Sulu province – has been sealed off in the hope of catching the Al Qaeda-linked militants. The Abu Sayyaf and the JI have been responsible for the worst terrorists attack in South east Asia.

The Al-Qaeda militants have escaped military dragnet several times. The United States has put up ten million dollar bounty. This was for Dulmatin's capture. One million dollar each for the capture of Janjalani and Patek.

Activity 3

Instructions: Make a news article based on the following facts:

Who: National Bureau of Investigation and Bangko Sentral ng Pilipinas

What: They arrested a counterfeiter. They also seized hundreds of fake Philippine peso bills of different denominations.

When: The arrest happened last week.

Where: It happened in Sta Cruz, Manila.

Other details:

-- Nestor Mantaring – NBI Officer in charge.

-- He presented the counterfeiter in a press conference on Monday afternoon.

-- Ronnie Jacobo – the counterfeiter.

-- He was a resident of 895 Quezon Boulevard, Sta Cruz, Manila.

-- Article 166 is all about forging treasury or bank notes, obligations and securities.

-- Jacobo faces charges of violating Article 166.

-- Six to twelve years imprisonment – this will be the punishment of Jacobo if proven guilty.

-- Marivic Jacobo – Ronnie's wife. She is an accomplice to the crime.

The NBI is also searching for Marivic.

-- Regional Director Ruel Lasala – head of the NBI National Capital Region Division. He launched an investigation upon receiving information that the suspect was engaged in the printing and sale of fake 500 and 1,000 peso bills.

-- An NBI agent posed as a buyer and bought a fake 500 and 1,000 peso bills from Ronnie and Marivic.

-- Wilfredo Villaluz – Bangko Sentral ng Pilipinas Supervising Agent.

According to him, the suspect did a good job.

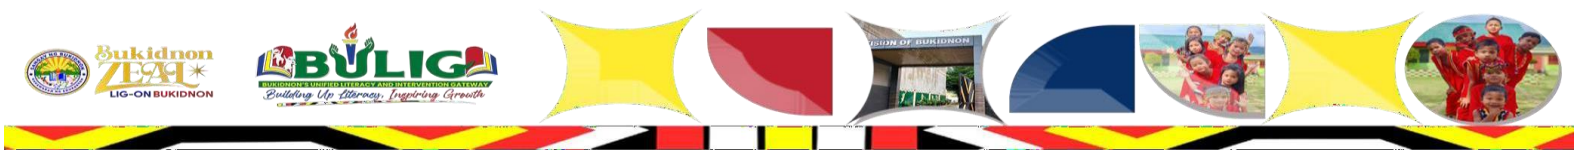

-- Bills were complete with watermark and security thread.

-- Upon closer look one would notice that the security thread is actually a sticker.

-- The suspect (Jacobo) admitted using CorelDraw and Adobe Photoshop basic graphic design program for his counterfeiting activity.

-- The 500 peso bills and the 1,000 peso bills were sold at 75 each.

-- 453,000 – the amount of counterfeit bills recovered by the authorities.

Activity 4

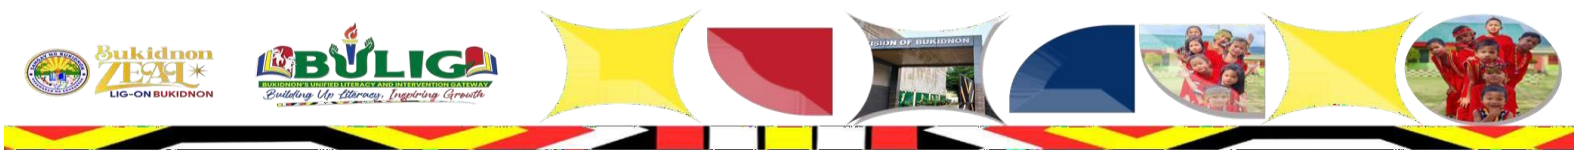

Instructions: Write **3–4 sentences** giving your opinion about whether the school cafeteria should offer more healthy snacks.

- State your opinion clearly.
- Give **one reason** to support your opinion.
- End with a short, convincing sentence.

Example:

Topic: Is social media helping or harming students today?

I think social media is harming students today. Many students spend too much time on apps and games, which can make them tired and distracted from their studies. For example, some students scroll through social media instead of doing homework. Students should use social media less so it does not affect their learning.

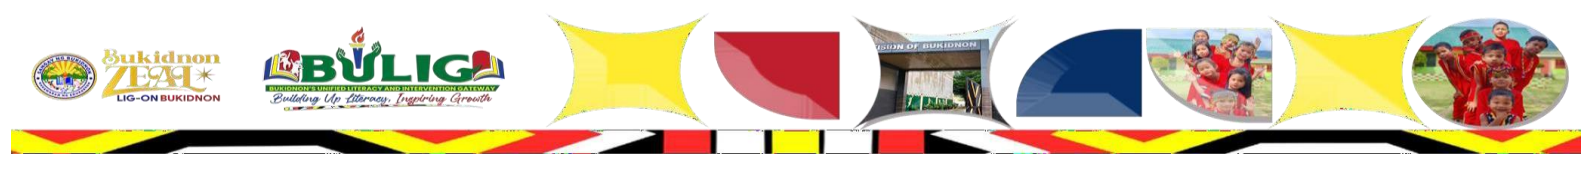

Activity 5

Instructions: Write a short editorial (1 paragraph).

- Start with a strong opinion (agree or disagree).
- Give **two reasons** to support your viewpoint.
- Provide **one possible solution** (e.g., limit, guidance).
- End with a closing statement that urges readers to agree with you.

Example:

Social media is both helping and harming students, but I believe it is mostly harmful. It can help students communicate with friends and learn new things, but many spend too much time online, which affects their schoolwork and sleep. For example, students may stay up late watching videos instead of studying for tests. To reduce these problems, students should set limits on their social media use and focus on important tasks first. Schools and parents can also guide students to use social media responsibly. Using social media in moderation can help students enjoy its benefits without hurting their studies.

Activity 6

Instructions: Write a well-developed editorial (2 paragraphs).

Paragraph 1:

- Present your opinion clearly.
- Explain **one positive** and **one negative** effect of social media.

Paragraph 2:

- State which effect you think is stronger and why.
- Provide **evidence or examples** (realistic, simple ones).
- End with a strong call to action (e.g., encouraging balanced or responsible use)

Example:

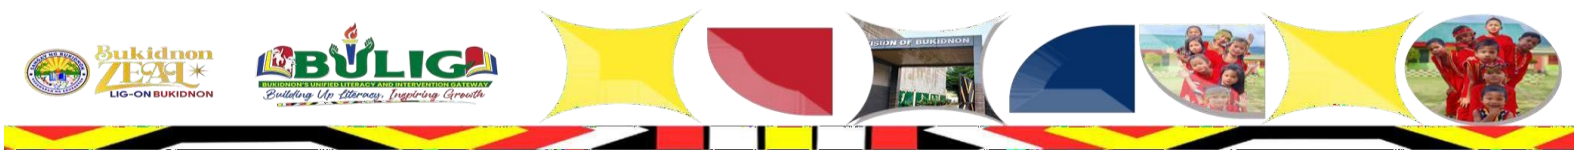

Social media is a powerful tool that can both help and harm students today. On the positive side, it allows students to connect with classmates, share ideas, and access educational content online. For example, students can join study groups or watch tutorials on difficult topics. However, social media can also distract students, cause stress, and reduce the time they spend on homework or outdoor activities.

I believe the negative effects are stronger than the positive ones if social media is not used carefully. Students should be taught to use social media responsibly and set daily time limits. Parents and teachers can also encourage activities like reading, sports, or hobbies to balance screen time. By using social media wisely, students can enjoy its benefits without letting it harm their health or learning.

Activity 7

Instructions: Watch a short sports clip (10–20 seconds) or think of a moment from a game you've seen. Write one sentence that describes what happened.

Example:
"Jordan sprinted down the court and made a quick layup just before the buzzer."

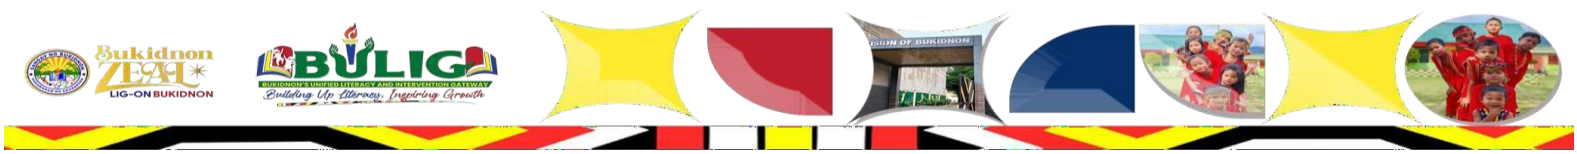

Activity 8

Instructions: Imagine (or choose) a game your school team played. Write a short recap including:

1. Who played
2. What sport
3. The final score
4. One highlight moment
5. One sentence about how the team felt afterward

This helps students build simple sports-story structure.

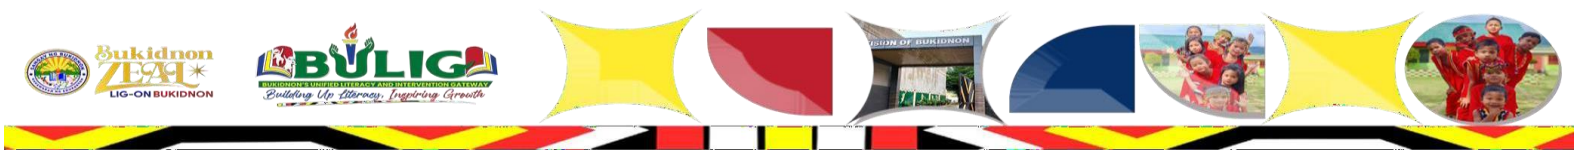

Activity 9

Instructions: Interview a friend or teammate about a game or practice. Ask questions like:

- "What was the hardest part of the game?"
- "What made you proud?"
- "What do you want to improve?"

Then write three short sentences, each starting with a quote from the person.
Example:
"I was nervous at first," Maya said.

Activity 10

Instructions: Copyread the article below using appropriate copy reading symbols. Write the slug, printers' direction with two headline using barline and droplines.

doctor. Ma. Girlie Pinongan, provincial health officer, said there were 2,211 influenza-like

cases reported from Jan. 1 to Dec. 2 this year in the 31 towns and cities of negros occidental

compiared to 616 cases in 2022.

health officials urged the public to take precautions during the holidayses as cases as cases of

influenza-like illness in Negros Occidental increased

by 258.93 percent this year.

he highest number of cases were recorded in Isabela town with 1,680 followed by San Carlos

City with 129; Murcia, 80; Bago City, 57; Talisay City, 50; Hinigaran, 20; Cadiz City, 19;

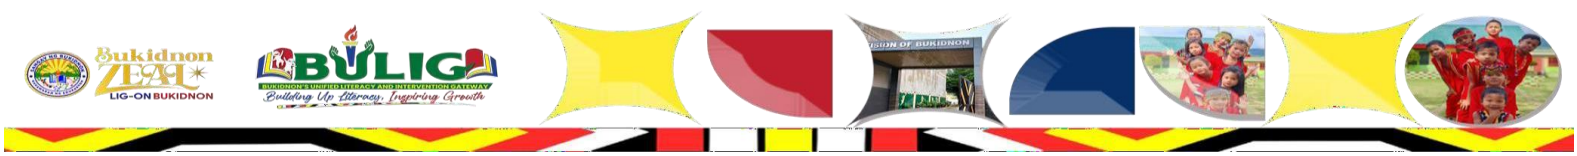

and Don Salvador Benedicto, Silay City and Victorias City with 16 each.

Still, she said, the public should avoid close contact with persons manifesting influenza-like

Symptoms

Pinongan said the cases are not severe and are usually triggered by changes in conditions weather/

She also urged people to wear maskes in closed and crowded spaces as a precaution.

Activity 11

Instructions: Copyread the article below using appropriate copy reading symbols. Write the slug, printers' direction with two headline using crossline and flush left.

The Lopez family's energy Developmet Corp. (edc) plans to build additional solar power

plants and battery energy storage systems within its geothermal project sites to further expand

its renewable energy portfolio and increase power supply across the country/

Barcena did not disclose farther details about this undertaking but noted that it wood be

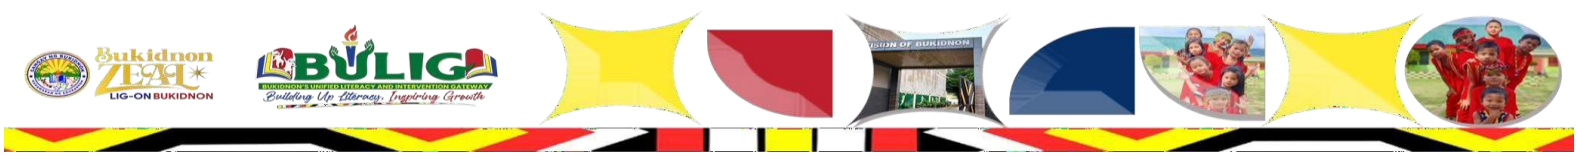

among the company's priority projects in the next 2 years.

"We won't go far bcoz we already have space within our geothermal project sites. We're

looking at how we can maximize some small solar facilities inside our geothermal [power

plants], Allan Barcena, EDC head of corporate social responsibility and public relations, told reporters last week.

At present, EDC has twelve megawatts (MW) of solar power capacity from two facilities in the country.

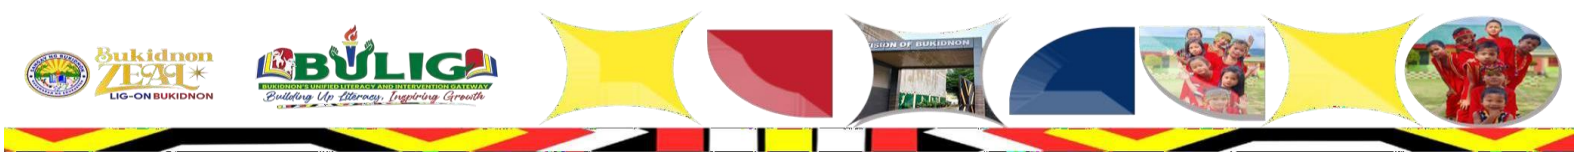

Apart from this, barcena said they were also looking at completing more battery energy storage system (BESS) projects in 2024 and 2025.

BESS facilities are used to store excess power from power plants during off-peak hours. These are tapped for poweeer when electricity demand increases to augment supply and prevent outages.

“BESS is a concept that’s evolving … I think storage will continues to be an opportunity to capture additional energy capacity, whether in hydro, solar or geothermal,” he said.

EDC signed an agreement in October with First Balfour Inc., the Lopezes’ construction and engineering unit, for the the development of three BESS projects with a combined capacity of 40 MW.

hese projects will be locate within EDC’s geothermal power plants in Sorsogon, Leyte and negros Oriental provinces

Activity 12

Instructions: Copyread the article below using appropriate copy reading symbols. Write the slug, printers' direction with two headline using crossline and inverted pyramid.

he provincial cuncil issued Resolution No. 1410-23 on wednesday, declaring a state of

calamity, following Hinatuan town's similar declaration the previous day

The provincial gov't emphasized declaring a state ofcalamity is a crucial step in aiding the community after the temblor.

The provincial government of surigao del Sur hasplaced the entire province under a state of

calamity after a powerful magnitude 7.4 earthquake struck off its coasts onsSaturday evening (December 2).

surigao del Sur's Provincial Disaster reduction Risk and Office management said more than 30 percent of the province's population was affected by the earthquake.

Data from the National Disaster Risk reduction and ManagementCouncil (ndrrmc) showed as

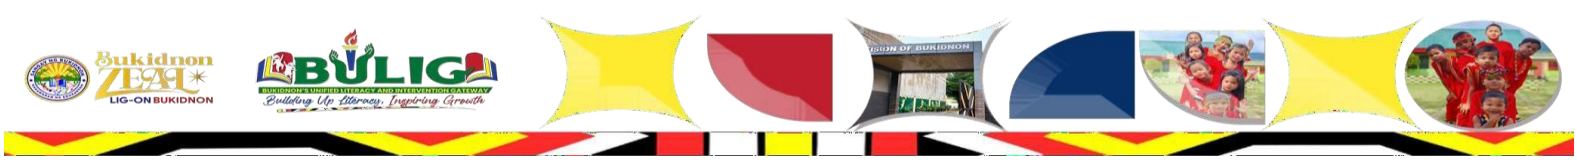

of 8 p.m. on Tuesday, the quake reportedly killed 3 and injured 48 individuals

NDRRMC has logged 3,336 aftershocks from the magnitude 7.4 tremor as of 4 p.m. the same day.

“Be it resolved that by the Panlalawigan Sangguniang of Surigao del Sur to diclare the entire

province of Surigao del Sur under State of Calamity due to the effects of the magnitude 7.4 offshore earthquake that struck the Province on december 2, 20 23

and the subsequent recurring tremors and big aftershocks,” the resolution read

Activity 13

Headline and Lead Writing (Science & Technology Journalism)

Theme: *Technology*
Name: _____
Grade & Section: _____
Date: _____

I. Learning Task

Write an effective **headline** and **lead** based on ONE (1) of the technology news briefs provided.

II. Qualities of a Good Headline

✓ Clear and direct
✓ Uses action words
✓ Focused on the main idea
✓ Short (6–10 words)
✓ Accurate and factual

III. Qualities of a Good Lead

✓ 1–2 sentences only
✓ Answers *Who, What, Where, When* (optional: Why/How)
✓ Clear, simple language
✓ Focuses on the most important information.

IV. Topic

STUDENT INVENTORS

Three senior high school students developed a low-cost mobile app that detects early signs of dengue outbreaks using location-based reports and temperature data.

V. Your Output

A. Write Your Headline (6–10 words only):

_____

_____

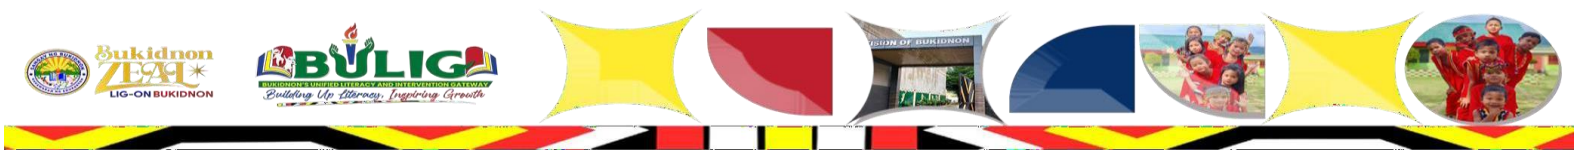

B. Write Your Lead (1–2 sentences only):

_____

_____

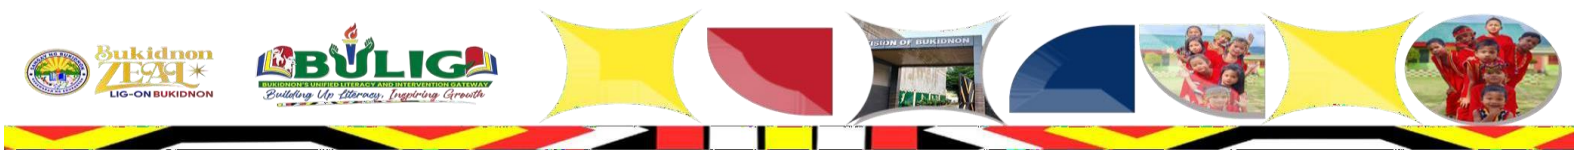

_____

_____

VI. Reflection (Short Answer)

Why is it important for journalists to write clear and accurate headlines and leads in science and technology news?

Activity 14

Developing Context and Main Body Content

Theme: *Technology*
Name: _____
Grade & Section: _____
Date: _____

I. Background of the Task

You are a student journalist assigned to write a **technology news article**. Your task is to develop the **context** and **main body content** of the story based on the information below:

News Scenario:

Three senior high school students developed a low-cost mobile app that detects early signs of dengue outbreaks using location-based reports and temperature data.

II. Review: What Is Context in News Writing?

Context provides **background information** that helps the reader understand:

- Why the news matters
- What problem it addresses
- The current situation related to the issue

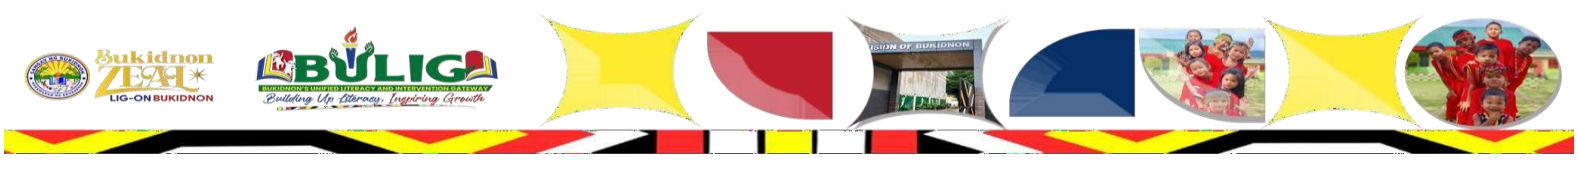

III. Review: What Is the Main Body of a News Article?

The main body expands the story by adding:

- Important details
- Quotes (real or simulated)
- Effects or implications
- Supporting data or explanations

IV. Activity Instructions

Using the news scenario above, complete the tasks below:

A. Write the Context Paragraph

Explain the **background** of the dengue issue and why a detection app is important. (3–4 sentences)

Your Answer:

B. Write the Main Body Paragraph

Add more details about the app, how it works, who created it, and its possible impact. You may include **invented quotes** to enrich the story. (4–6 sentences)

Your Answer:

V. Reflection Question

How can technology created by students contribute to solving real community problems?

Activity 15

Adding Supporting Information and Writing the Conclusion

Theme: Technology News Scenario: Three senior high school students developed a low-cost mobile app that detects early signs of dengue outbreaks using location-based reports and temperature data.

I. Task Overview In this activity, you will strengthen your news article by:

1. Adding supporting information

2. Writing an effective conclusion to the story

II. What is Supporting Information?

Supporting information includes: - Additional facts or explanations - Expert or user opinions - Research data or statistics - Real or simulated quotes

III. What is a News Conclusion?

A conclusion: - Wraps up the story - Highlights the importance of the project - Looks at next steps or future impact

IV. Activity Instructions

A. Add Supporting Information

I. Write 3–4 sentences that give additional details about the app, dengue data, student motivations, or expert opinions.

Your Answer:

_____

_____

_____

_____

_____

_____

_____

B. Write the Conclusion Paragraph

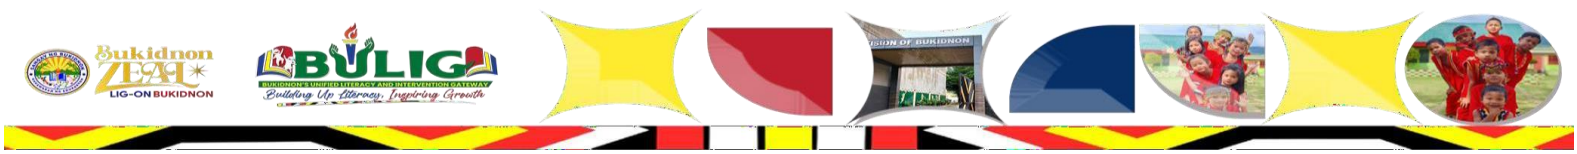

Write 2–3 sentences explaining the significance of the students' innovation and its potential impact on the community or the future.

Your Answer:

_____

_____

_____

V. Reflection How does supporting information make a news article more reliable and informative?

Activity 16

A Day in the Life of ….

Instructions:

1. Choose someone to feature: a classmate, teacher, family member, neighbor, or even a school staff member (e.g., librarian, guard, janitor).
2. Interview the person using at least **5 questions** (e.g., daily routine, hobbies, challenges, fun facts).
3. Write **3-4 paragraphs feature article** titled *"A Day in the Life of _____."*
4. Focus on capturing interesting details, personality, and real experiences.
5. Add one photo or hand-drawn illustration (optional).

Example:

Title: A Day in the Life of Mr. Santos, the School Guard

Mr. Santos steps through the school gate before the sun has fully risen, his uniform crisp and his flashlight in hand. He smiles warmly as he greets the early students trickling in, locking the gate behind him. "I like being the first one here," he says. "It gives me time to think and prepare for the day."

Throughout the morning, he patrols the corridors, making sure classrooms are secure and reminding students to put their things away. When someone forgets a book or backpack, he helps them carry it to their classroom. At recess, he watches students play, sometimes pausing to chat he asks about their day, what subjects they like, and even what games they play at home.

In the afternoon, Mr. Santos helps guide students out of the school grounds safely. He stands by the gate, waving goodbye, and makes sure no one lags behind. After the last student leaves, he walks around to check every door and window. He says, "My job isn't just to guard the school — I guard their memories too. I want them to leave knowing they're safe." As he closes up, his face shows a quiet pride: even in the small moments, he knows he's made a difference.

Activity 17

Instructions:

1. Explore the school campus and identify a "hidden gem"—a place or feature students may overlook (e.g., a quiet reading corner, an art display, a garden spot).
2. Describe what makes this place special or unique.
3. Interview at least **1 person** who knows something about the location (e.g., librarian, teacher, classmate).
4. Write a **short feature article (2–3 paragraphs)** that includes descriptive details, sensory imagery, and interesting facts.
5. Give the article a catchy title (e.g., *"The Secret Garden Behind the Science Lab"*).

Example:

Title: ***The Secret Garden Behind the Science Lab***

Paragraph 1 – Description:
Tucked behind the science lab, away from the bustling hallways, lies a small garden that most students pass by without noticing. Sunlight filters through the branches of a tall jacaranda tree, casting dappled shadows on the neatly arranged flowerbeds. The air is fragrant with the scent of blooming marigolds and jasmine, and the gentle sound of rustling leaves creates a peaceful atmosphere. A worn wooden bench sits under the tree, inviting anyone to pause and enjoy the quiet.

Paragraph 2 – Stories and Facts:
Mrs. Alvarez, the school's biology teacher, explains that the garden was planted by students five years ago as part of a sustainability project. "It started as a simple idea to grow flowers and herbs for the school, but it became a place where students could relax and observe nature," she says. Over the years, students have added bird feeders, a small pond, and colorful stepping stones. Many report that spending time here helps them focus and feel calm between classes.

Paragraph 3 – Reflection / Significance:
Though it may seem small and unassuming, this garden is a hidden treasure in the school. It reminds everyone that even in a busy campus, there are spaces to pause, reflect, and connect with nature. For those who take the time to explore it, the garden offers more than beauty—it offers a moment of calm and inspiration in the middle of a hectic school day.

Activity 18

Instructions:

1. Bring an object from home or choose one from the classroom (e.g., a favorite book, an old photo, a trophy, a toy).
2. Research or reflect on the object's background:
    - Where did it come from?
    - Why is it meaningful?
    - What memories or events are connected to it?
3. Write a **feature-style narrative (3 paragraphs)** that tells the "story" of the object in an interesting way.
4. Use sensory details and emotion to make the object come alive.

Example:

Title: The Old Trophy from the First Math Contest

In the trophy case near the principal's office, there is an old silver cup decorated with ribbons. The plaque reads: *"First Inter-School Math Contest – 1985."* It's a little dusty now, but when you hold it, you can feel its history.

Mr. Reyes, one of the oldest teachers, remembers when the school won that first contest. "We practiced every day after school," he recalls. "We were so poor at first, but we really wanted to prove we could compete." That math contest was a big deal — students from different schools came, and our school didn't expect to win. But they did, and when they lifted that trophy, everyone cheered.

Now, the trophy stays in the case. Students look at it and talk about who came before them, and what it took. For some, it's just a shiny cup. For others, it's a symbol: with hard work, even ordinary students can do extraordinary things.

Activity 19

Instructions: Label each part.

1. **Title / Headline – The name of the column, which should be catchy and indicate the topic.**
2. **Introduction / Lead – The opening paragraph that introduces the topic and grabs the reader's attention.**
3. **Opinion / Viewpoint – The writer's personal opinion or stance on the topic.**
4. **Body / Supporting Details – Paragraphs that explain, describe, or give examples to support the opinion.**
5. **Conclusion / Closing – The final paragraph that summarizes the main idea and reinforces the writer's opinion.**

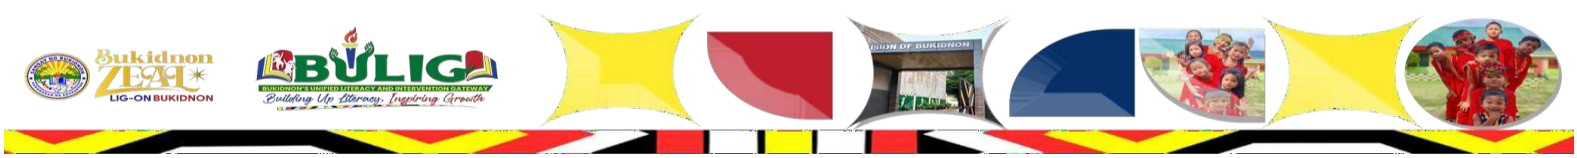

_____1. Books, magazines, and even online articles can teach useful lessons and provide fun stories. Students who read regularly often perform better in school and feel more confident in class discussions.

_____2. **The Importance of Reading**

_____3. In conclusion, reading is more than just a school activity; it is a skill that helps students grow. Developing a daily reading habit will benefit students now and in the future.

_____4. Reading is an important habit for students because it helps them learn new things and expand their imagination. It can also make schoolwork easier and more enjoyable.

_____5. I believe all Grade 7 students should read every day because it improves vocabulary, thinking skills, and creativity. Reading also helps students understand the world better and connect with others.

Activity 20

Instructions: Put the sentences in the correct order and rewrite them.

Students who participate in sports also build confidence through regular practice. They learn to cooperate with teammates and value hard work.
School Sports: More Than Just Games
Sports are an important part of school life because they help students stay active and healthy. They also make school more enjoyable through fun and energetic activities.
In conclusion, school sports help students grow physically, mentally, and socially. They build character and prepare young people for future challenges.
I believe Grade 7 students should join school sports because they learn more than just playing the game. Sports teach teamwork, discipline, and responsibility.

_____

_____

_____

_____

_____

_____

_____

_____

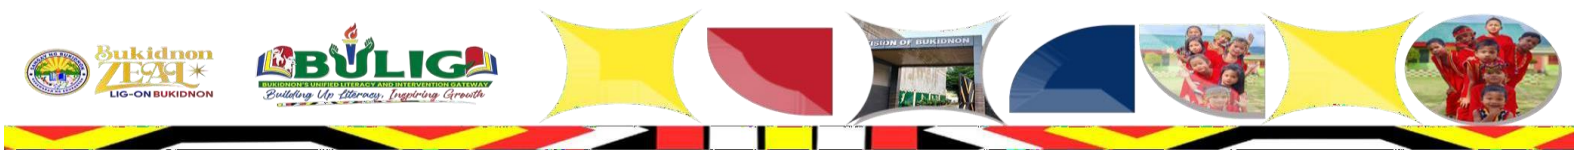

_____

_____

_____

_____

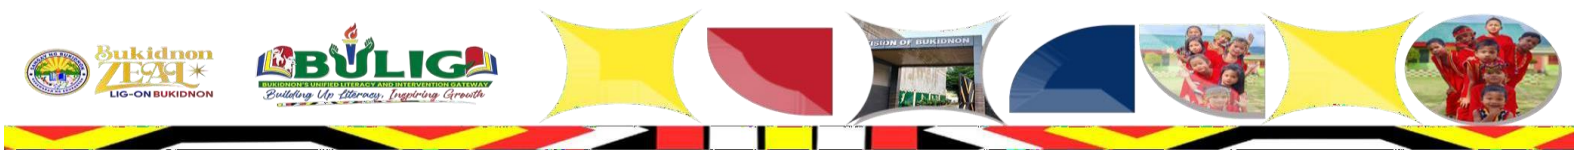

_____

Activity 21

Instructions: Write a short column or article about **"My Favorite Hobby"**. Then label:

- Headline
- Introduction
- Body
- Conclusion

Activity 22

"River in Crisis: Plastic Waste Threatens Local Fish Population"

San Isidro, Laguna — Residents of Barangay Malinaw were shocked this week after local scientists released a report revealing dangerously high levels of plastic waste in the Maliit River, a waterway once known for its clear water and abundant fish.

According to the team of researchers from Laguna State Environmental Laboratory, plastic pollution in the river has increased by 63% in the last five years. The most concerning part of the study shows that if the trend continues, the community may lose up to 60% of its fish population in the next five years.

"We found plastic bags, sachets, straws, and even broken toys trapped in the riverbed," said Dr. Elisa Ramos, lead scientist of the study. "Fish are mistaking microplastics for food. Many are getting sick or dying."

Fisherfolk in the area have also noticed the alarming decline.
Mang Tonyo, a fisherman of 30 years, shared that his usual three kilos of fish per day has dropped to less than one kilo. "Minsan wala pa nga. Puno ng basura ang lambat namin," he said, showing nets tangled with plastic waste.

Local officials admitted that the river cleanup programs have not been enough. Barangay Captain Lucia Hernandez urged residents to reduce single-use plastics and participate in the upcoming community clean-up next month.

Environmental groups warn that without immediate action, the river may become biologically dead—unable to support fish or other aquatic life.

"This river feeds families," Dr. Ramos added. "If we lose it, we lose part of our community."

<u>Task:</u>

- Draw a cartoon showing how the river looks now, full of plastic waste.
- Include fish, humans, and trash in a visual story:
    - Fish struggling or sick from microplastics.
    - Mang Tonyo trying to catch fish in trash-filled nets.
    - Residents or children holding signs: "Save Maliit River!"

Activity 23

"Luna and the Sad River"

In the town of Malinaw, there flowed a river that everyone loved. It was called the Maliit River, and it sparkled under the sun like a long, silver ribbon. Children played by its shore, fishermen caught fresh fish every morning, and families enjoyed picnics on weekends.

But one day, Luna, a curious 12-year-old girl, noticed something different. When she sat by the river, she frowned.

"Why is the water… darker?" she whispered.

Instead of smooth stones and shiny fish, Luna saw plastic bags, sachets, straws, and even an old broken toy floating in the water.

The fish looked unhappy too. One small fish swam near her, bumping into bits of plastic.

"Oh no," Luna said. "Are you okay?"

The fish couldn't speak, of course, but Luna imagined it saying, *"We're trying… but the trash is making it hard to breathe."*

That afternoon, Luna went to visit Mang Tonyo, the friendly fisherman who always told funny stories. She saw him pulling up his fishing net, but instead of fish, it was full of plastic.

"Mang Tonyo, what happened?" Luna asked.

He sighed. "The river is sick, anak. There's too much trash. I used to catch three kilos of fish every day. Now… sometimes I catch none."

Luna felt a tight squeeze in her chest. How could a river get sick?

The next day at school, Dr. Ramos, a scientist from the community, visited their class.

"Children," she said gently, "we studied the Maliit River, and we found that plastic waste has increased a lot. If nothing changes, we might lose more than half of the fish in just a few years."

The whole class gasped.

“But it’s not too late,” Dr. Ramos continued with a hopeful smile. “If we work together, we can help the river heal.”

Luna’s eyes brightened. She had an idea.

That weekend, with help from her classmates, she organized a River Rescue Day. They brought gloves, sacks, and posters that said, *“A Clean River is a Happy River!”* Even parents and neighbors joined in.

They picked up trash, sorted recyclables, and planted new plants along the riverbank. It was hard work, but Luna felt proud.

At the end of the day, she sat by the river again. This time, she saw something wonderful—small fish swimming freely in a cleaner spot.

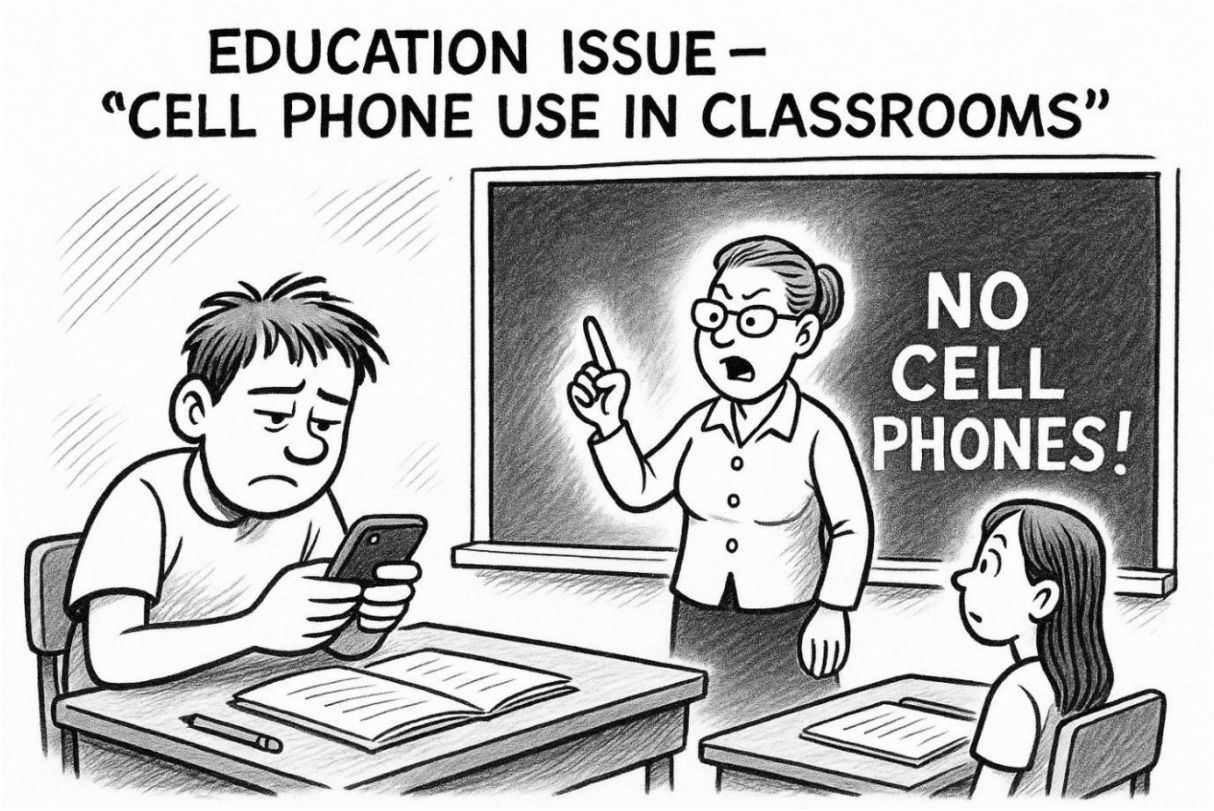

Luna smiled.
“Don’t worry, little river,” she whispered. “We’re here to help.”

And from that day on, the people of Malinaw promised to take better care of the Maliit River—so it could sparkle once more and stay alive for future generations.

Task:

- Draw a cartoon showing Luna discovering the polluted river.
- Include:
    - Dark, plastic-filled water
    - Sad or struggling fish
    - Luna’s worried expression
- Optional: A thought bubble for the fish: “We’re trying… but the trash is making it hard to breathe.”

Activity 24

Article for Students

Title: Schools Debate Cell Phone Use in Class
Several schools in the region are debating whether to ban cell phones during class. Teachers say phones distract students and cause lower performance. Students argue that phones help them research quickly and communicate during emergencies. Some schools are considering a "limited use" policy to balance both sides.

Task:

- Create a cartoon showing both advantages and disadvantages of cell phones in school.
- Include at least two characters.

Activity 25

Instructions: Write a 10-15 second greeting that a radio host might say at the start of a show. Write your greeting in the space provided below.

Requirements:

- A warm greeting
- Station name
- A short welcome message

Example:

"Good morning! You're listening to One Voice News Radio, bringing you the latest news and updates all day! Stay tuned for today's top stories. We've got important reports and interviews lined up just for you!"

Write your greeting here:

Activity 26

Instructions: Write a short weather report about the information provided below.

- Greeting
- Today's weather
- Temperature
- A simple forecast (e.g. "Sunny this afternoon", "cloudy skies")
- Advice for listeners (e.g. "Don't forget your jacket!")

Example:

"Good day, everyone! Today in Bayabason, Maramag, Bukidnon, expect cloudy skies with temperatures around 22 degrees. Don't forget to bring your umbrellas, be safe!

Write your report here:

Activity 27

Instructions: Write a short school announcement about an upcoming event (field trip, contest, club meeting), or a reminder (uniform, deadlines, project submissions).

Requirements:

- Greeting
- What the announcement is about
- Important details (date, time, place)
- A short closing line

Example:

"Good afternoon, students! Don't forget that the Art Club meets tomorrow at 3 p.m. in Room 12. Everyone is welcome to join. This is FIS News Radio reminding you to stay creative!"

Write your short school announcement script here:
