PREFACE

Reading remains the cornerstone of all learning, yet it continues to be one of the most persistent and complex challenges confronting basic education today. In response to this need, the Schools Division of Bukidnon proudly introduces the **Bukidnon’s Unified Literacy and Intervention Gateway (BULIG)**—a division-wide transformative innovation designed to strengthen reading proficiency, accelerate learning recovery, and ensure that every learner develops the literacy skills necessary for academic success and lifelong learning.

BULIG is not merely a program; **it embodies a unified literacy movement** grounded in collaboration, evidence-based practices, and a strong commitment to equity and inclusivity in education. Guided by its tagline, **“Building Up Literacy, Inspiring Growth,”** **BULIG** aspires to cultivate a culture where reading is valued, supported, and sustained—empowering learners to reach their full academic and personal potential.

By harmonizing instructional approaches, consolidating reading intervention materials, and promoting consistent implementation across schools, **BULIG** provides a coherent and adaptive support system that responds to the diverse needs of learners. It seeks to close longstanding gaps in reading performance, strengthen teacher capacity, and institutionalize effective and sustainable literacy practices.

Central to the implementation of **BULIG** is its alignment with **the ARAL Program (Academic Recovery and Accessible Learning)**—DepEd’s national learning recovery initiative. By integrating ARAL’s targeted intervention cycles, diagnostic assessments, and remediation strategies, **BULIG** strengthens its capacity to address learning loss, support struggling readers, and reinforce foundational skills essential for progression in the curriculum. This synergy ensures that learners receive timely, differentiated, and research-informed interventions that enable them to overcome reading challenges and build confidence.

Through the unified efforts of **BULIG** and ARAL, the Division of Bukidnon envisions **classrooms where every learner reads with fluency, comprehends with accuracy, and engages with texts meaningfully.** The initiative aspires to cultivate empowered, independent readers equipped with the skills necessary for higher-order learning, academic excellence, and holistic development.

As we move forward, let us affirm our collective commitment to making literacy not only a priority but a **guaranteed reality** for all learners. Through shared responsibility, strong instructional leadership, and unwavering dedication to quality basic education, we can ensure that no Bukidnon learner is left behind in the pursuit of literacy and lifelong learning.

SKILL A- NOTING DETAILS

Magnets

Magnets have the power of attracting objects made of steel, iron, and other metals.

The discovery of the magnet and the many things that have been made out of it have brought about many discoveries and useful things. The magnet makes possible the compass that was used and still being used by travelers - pilots, sailors, boy scouts, soldiers, engineers, and others. The magnet which makes use of electricity has made all types of electric and industrial motors.

Choose the letter of the correct answer.

1. Magnets can attract objects made of _____.
A. plastic B. metals C. wood D. rubber
2. The discovery of magnets led to many _____.
A. inventions B. revolutions C. problems D. effects
3. Magnets made possible the inventions of the _____.
A. compass B. computer C. camera D. cellphone
4. Pilots, sailors, boy scouts, soldiers and engineers depend much on _____.
A. compass B. electricity C. motors D. laptop

SKILL B- GETTING THE GENERAL SIGNIFICANCE OF A SELECTION**Exercise 1**

Our body remains at a certain temperature all the time. When we get very warm, little beads of water called sweat form on our skin. Sweat is mostly water mixed with salt from the body. This is also called perspiration. Perspiring is a quick method of cooling off the body. As a little bead of sweat evaporates, it carries away a little heat from the body, and we feel a little cooler.

1. What happens to our body when we feel hot?
 - A. Our body perspires
 - B. Our body evaporates
 - C. Our body burns
 - D. Our body dies
2. What is the paragraph about?
 - A. It is about maintaining the body temperature.
 - B. It is about keeping the body warm.
 - C. It is about keeping the body cool.
 - D. It is about living a meaningful life.
3. What does the selection explain?
 - A. perspiring is not good for the body.
 - B. perspiring is good for the body.
 - C. perspiring is a sign of illness.
 - D. Perspiring can make us tired.

Skill B- GETTING THE GENERAL SIGNIFICANCE OF A SELECTION

Exercise 2

The body should be kept clean at all times. Plenty of soap and warm water help remove excess oil, dirt, and germs from the skin. Rubbing the body with a towel after bathing stimulates the flow of the oil from oil glands and keep the skin smooth and soft.

Dirty hands may not actually look dirty, but it is always safe to wash them before handling food, before and after eating.

The ears, the eyes, the nose, the mouth and teeth need special cleaning Attention so, with the hair.

The feet should be washed and dried before putting on one's shoes or slippers.

A clean body keeps sickness away!

1. What is a good title for the selection?
 - A. Keeping the body clean
 - B. Dirty hands and feet
 - C. How to clean One's Feet
 - D. How to be dirty
2. When should the body be kept clean?
 - A. before sleeping
 - B. at all times
 - C. before and after eating
 - D. when we wake up
3. Which sentence is true according to the selection?
 - A. A clean body keeps sickness away.
 - B. Keeping the body clean takes little effort.
 - C. Cleaning the body takes a lot of time and effort.
 - D. A clean foot can attract other people.

Skill C- PREDICTING THE OUTCOME OF THE GIVEN EVENT AND MAKING INFERENCES

Anti-Decay Vaccine

Most people have had dental problems which start with a simple toothache. No matter how well one brushes his teeth, sooner or later cavities are formed which later cause tooth decay.

Today, scientists are busy experimenting to discover a vaccine that would make people immune to tooth decay.

1. Why do scientists want to discover a vaccine for tooth decay?
 - A. To help people avoid tooth decay.
 - B. To help babies grow stronger.
 - C. To improve people's eyesight.
 - D. To help medicine companies earn money.
2. What is the vaccine for?
 - A. To prevent bad breath
 - B. To prevent deformed teeth
 - C. To prevent tooth decay
 - D. To prevent skin diseases
3. What will be the effect of the vaccine?
 - A. Many people will be saved from the pain of having tooth decay.
 - B. People will not brush their teeth anymore.
 - C. There will be no more need for dentists.
 - D. Many people will have skin allergies.

Skill D- READING TO FOLLOW PRECISE DIRECTIONS**When Rizal Was a Boy**

One Monday morning, Jose woke up early to get ready for school. His mother told him to wear his new “camisa” made of abaca. Jose looked quiet and sad. He didn’t like to wear camisa.

“But I want you to wear it,” his mother insisted.

Jose looked at his mother and politely answered, “Yes Mother”.

1. Box the word that described Jose.
 - A. Intelligent
 - B. Obedient
 - C. Helpful

2. Box the phrase that tells when the story happened.
 - A. when Rizal was a boy
 - B. when Rizal was a grown-up man
 - C. when Rizal was dead
 - D. when he was a teenager

3. What word that starts with letter **P** that tells how Jose answered his mother?
Write the word and encircle it.

4. Copy the name of the plant mentioned in the selection and draw a box around it.

SKILL E-READING EXERCISES FOR SPEED AND COMPREHENSION

Exercise 3 PRETEST/POST TEST

INSECTS

There are more than half a million kinds of insects. The kinds of insects outnumber the kinds of all animals put together.

Insects live in almost any kind of habitat. There are many in the sea, but they are found almost everywhere in freshwater and on land.

All insects have six legs and one pair of feelers. All insects are covered with a waterproof substance called chitin. Most insects have wings. Their bodies are divided into three parts: the head, the thorax, and the abdomen.

Most insects crawl, hop, swim, jump or walk. But flying is their usual way of getting about. Some can fly very fast. Dragonflies one are among the fastest fliers.

Some insects have two pairs of wings. Some have one pair. Some have none at all. It is safe, therefore, to think that insects differ in shape, size and color.

SKILL E-READING EXERCISES FOR SPEED AND COMPREHENSION**INSECTS**

TEST QUESTIONS. Copy the letter of the correct answer.

1. There are more than _____ kinds of insects.

- A. thousand B. half a million C. hundred D. millions

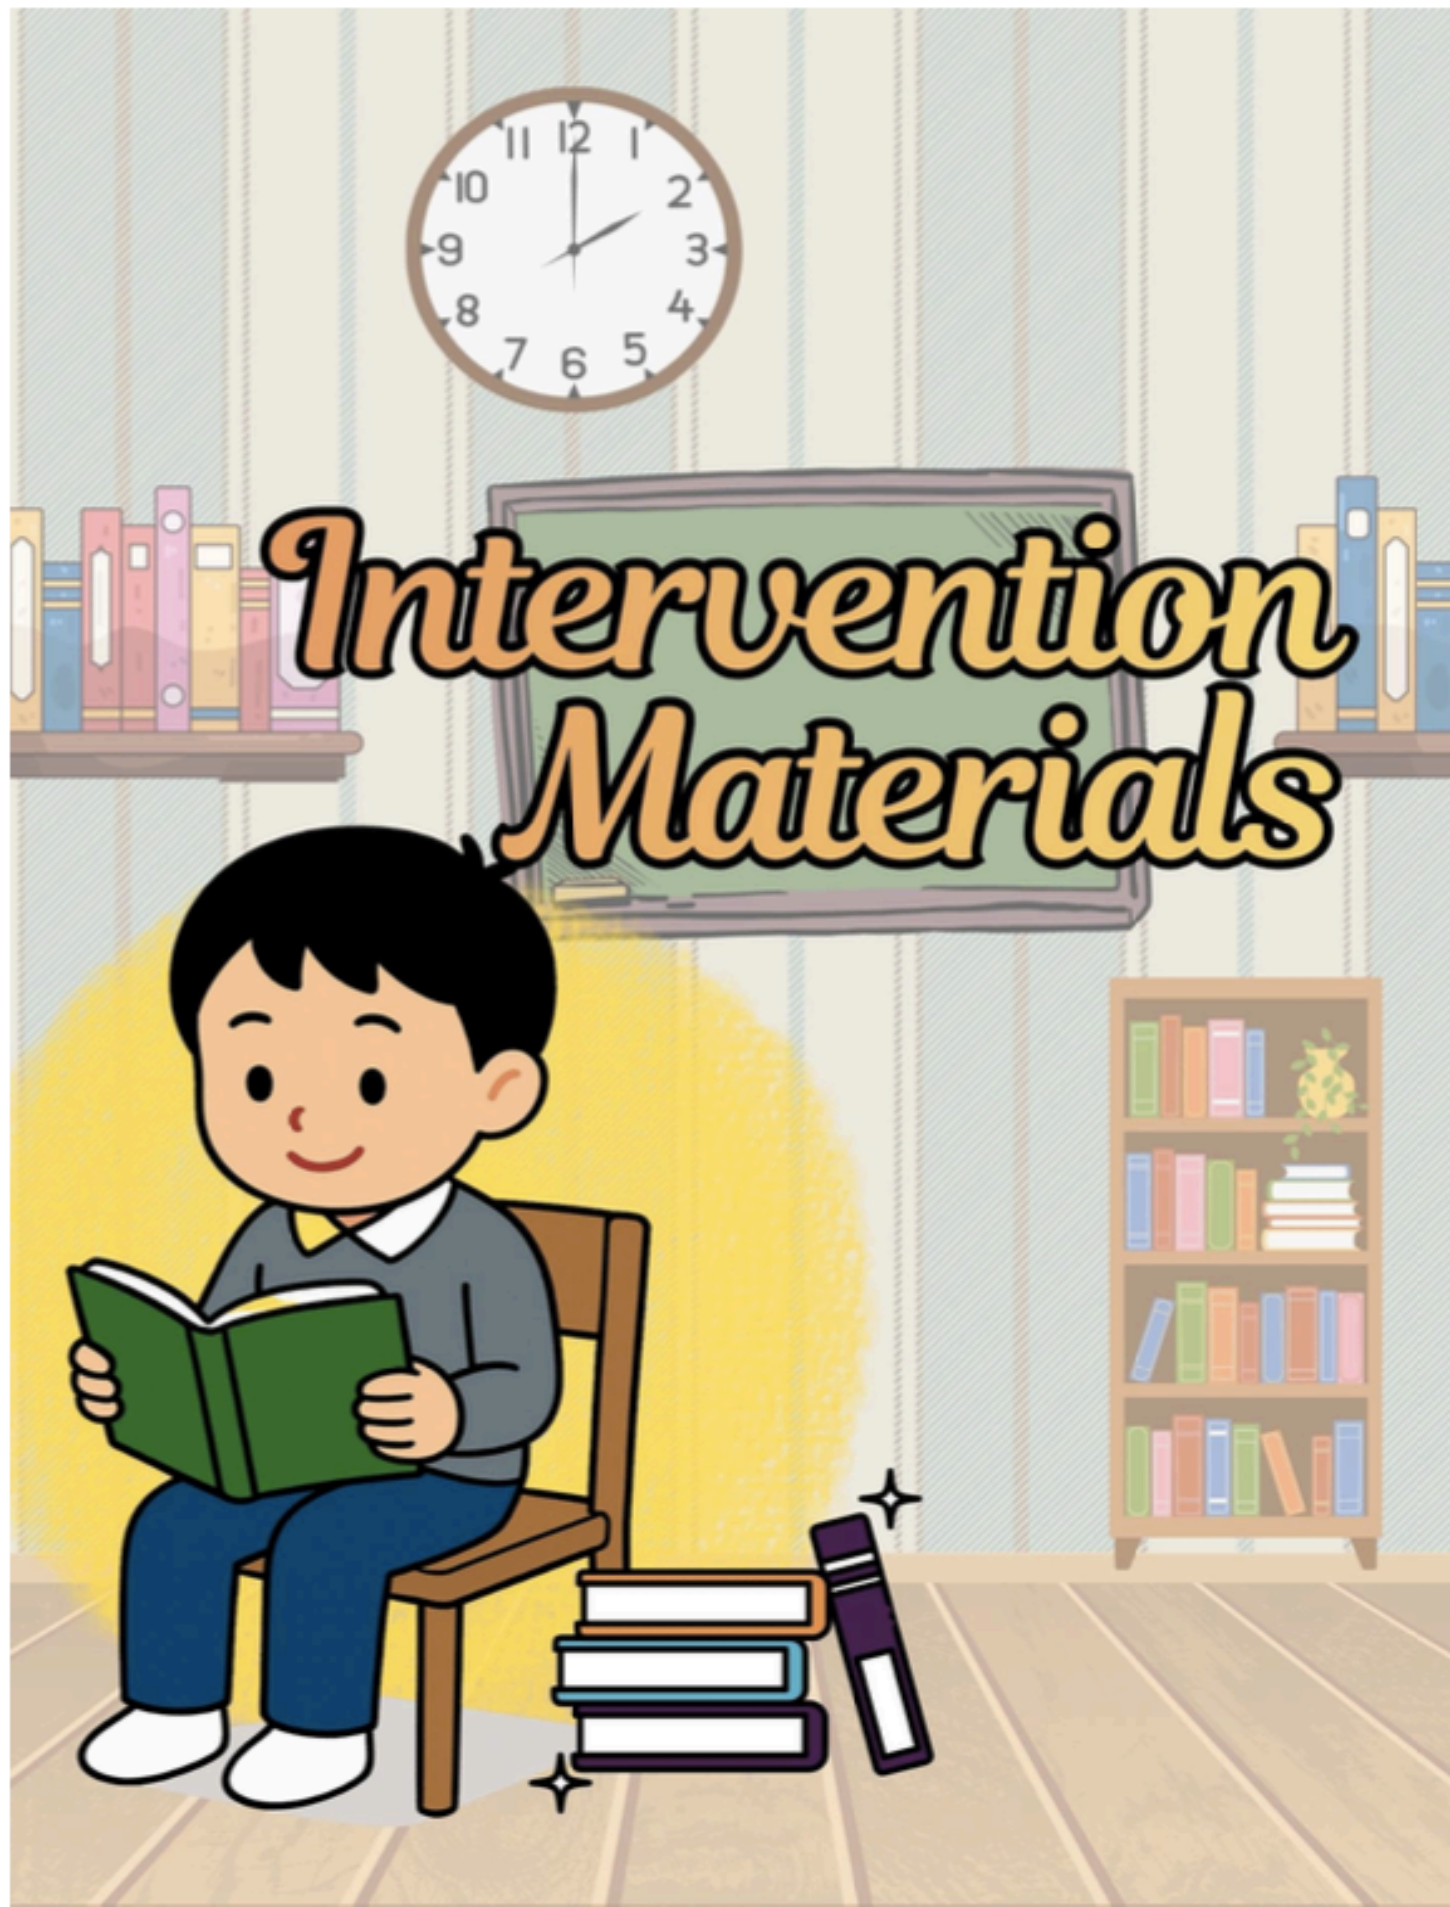

2. In what ways do insects differ?

- A. In form B. in height C. in shape, size and color D. in movement

3. Why can insects fly?

- A. they have legs B. they have antenna
C. they have wings D. they have feelers

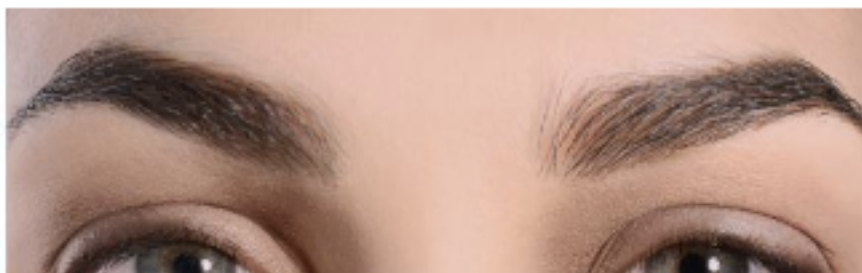

SKILL A- NOTING DETAILS

Activity 1 Exercise 1

Key words: beauty protection sweat rid

The Eyebrows

Eyebrows are part of the face which serve two purposes--for beauty and protection.

Eyebrows make the face look more beautiful by calling attention to the eyes. They make the eyes look healthier and brighter.

Eyebrows not only beautify the face but also protect the eyes from sweat. Without the eyebrows, drops of sweat may run into the eyes and blur the sight. Sweat itself is a waste product and should be gotten rid of.

Choose the letter of the correct answer:

- The part of the body mentioned in the selection is the _____.
A. eyelashes B. eyelids C. eyebrows D. eyeliner
- This part makes the face look _____.
A. beautiful B. sad C. sleepy D. happy
- Aside from beauty, they also serve the purpose of _____.
A. communication B. conservation C. protection D. transportation
- The eyebrows call attention to the _____.
A. nose B. eyes C. cheeks D. lips
- The eyebrows make the face look _____.
A. uglier B. healthier C. funnier D. younger
- How do eyebrows serve its purpose for the eyes?
A. The eyebrows protect the eyes from sweat.
B. The eyebrows protect the eyes from glare.
C. The eyebrows protect the eyes from diseases.
D. The eyebrows protect the eyes from enemies.

7. Sweat is _____.

- A. sweet B. useful C. poisonous D. useless

8. Sweat can blur the sense of _____.

- A. sight B. smell C. taste D. touch

9. Sweat should be _____.

- A. conserved B. gotten rid of C. licked D. saved

10. Why do we have eyebrows?

- A. They make the face beautiful. B. They protect the eyes from sweat.
C. They make the eyes look brighter. D. They help the face look healthier.

SKILL A- NOTING DETAILS**Activity 2 Exercise 2**

Key words: stately abundantly slender

Calla Lilies

The stately flowers that are commonly used for decorating the church during weddings are the Calla lilies. Calla lilies are also called Baguio lilies because they grow abundantly there.

Calla lilies grow singly on long slender stalks. They may either be yellow or white. They are made into bridal bouquets or even wreaths.

Choose the letter of the correct answer.

1. Calla lilies are commonly used for _____.

- A. corsages B. garlands C. church decoration D. birthdays

2. Calla lilies are also called _____.

- A. Water lily B. Rose lily C. Baguio lilies D. Lily rose

3. Why are calla lilies also called Baguio lilies?

- A. It is because these lilies grow abundantly there.
 B. It is because these lilies grow scarcely there.
 C. It is because these lilies grow singly there.
 D. It is because these lilies grow nicely there.

4. Calla lilies grow _____.
A. in clusters B. singly C. in pairs D. in group
5. The selection is about _____.
A. gumamela B. calla lilies C. sampaguita D. roses
6. How will you describe the stalks of calla lilies?
A. The stalks of calla lilies are slender.
B. The stalks of calla lilies are stout.
C. The stalks of calla lilies are wide.
D. The stalks of calla lilies are short.
7. Calla lilies may either be _____.
A. white or red B. red or yellow C. yellow or white D. red or white
8. Brides used Calla lilies in their _____.
A. wreaths B. corsage C. bouquets D. headdress
9. Calla lilies are also used for _____.
A. corsage for the head B. corsage for the dress
C. wreath for the dead D. corsage for the dead
10. Calla lilies are _____.
A. stately B. fancy C. unattractive D. cheap

SKILL A- NOTING DETAILS

Activity 3 Exercise 3

Key words: patter countless pestle nestle

Counting the Rain

I love counting the rain, Mother.
 As they patter and as I see
 Do not all the great men like Rizal
 Count rain, too, when still young like me?
 See the numerous dropping rains
 How hard it is for little brains.
 And I recall the children's riddle
 About the old man's countless canes.
 How I love the fast falling rain
 Like a thousand pounding pestles
 And the little rushing water
 Down the stream to see it nestles.

Choose the letter of the correct answer:

1. The child is talking to his _____.
 A. father B. mother C. sister D. grandmother
2. The child loves to _____ the rain.
 A. count B. drink C. catch D. splash

3. The child wants to know if counting the rain has also been an activity of _____.

- A. great men B. old men C. sickly men D. women

4. The rain nestles in the _____.

- A. dream B. stream C. street D. River

5. The old man countless canes is a _____.

- A. riddle B. fiddle C. peddler D. needle

6. The water rushes to the _____.

- A. brook B. stream C. street D. Ocean

7. In the riddle, the countless canes refer to the _____.

- A. little brain B. dropping rains C. stream D. little hands

8. How does the rain move?

- A. withers B. patters C. gathers D. fades

9. The child loves the _____ rain.

- A. fast B. slow C. tumbling D. cold

10. Why does the child like the fast-falling rain?

- A. Because, it is like a rushing water.
B. Because it is like a big waves.
C. Because it is like a pounding pestle.
D. Because it is like a silent water.

SKILL A- NOTING DETAILS

Activity 4 Exercise 4

Key words: tribes trick defied enchanted

The Enchanted Deer

Once there were two warring tribes whose kingdoms were divided only by a wide river. The king on the land north of the river had a beautiful daughter named Mayumi; while the King on the land south of the river had a brave handsome son named Bayani.

Both kings hated each other so much that they even wanted their children to hate each other, too.

But fate played a trick on them. Mayumi and Bayani fell so madly in love with each other that they defied their parents' wish. They often met secretly in the nearby forest.

One early morning, Mayumi went to meet Bayani in the forest. She had some enchanted power so she changed herself into a deer. She did not want anybody to see her.

Bayani waited for her. When he saw the deer, he was attracted to it. He quickly shot an arrow not knowing it was Mayumi.

The deer fell bleeding. Bayani ran to see his prize, but he saw Mayumi instead. He wept and, in his grief, he stabbed himself to death.

Choose the letter of the correct answer:

1. The two kingdoms were divided by _____.
A. mountains B. seas C. a river D. clouds
2. Mayumi was a daughter of the king of the _____.
A. South B. North C. East D. West
3. Bayani was the son of the king of the _____.
A. South B. North C. East D. West
4. How will you describe the kings' relationship?
A. good friends B. enemies C. very old D. happy
5. Mayumi and Bayani _____.
A. hated each other B. loved each other
C. envied each other D. do not know each other
6. Mayumi and Bayani met in the forest _____.
A. openly B. secretly C. very often D. sadly
7. How will you describe Mayumi?
A. Mayumi possessed some enchanted power .
B. Mayumi was a witch.
C. Mayumi was a magician.
D. Mayumi was a warrior.
8. Mayumi could change herself into a _____.
A. dog B. horse C. deer D. cat
9. What did Bayani do to the deer?
A. Bayani shot the deer.
B. Bayani just looked at the deer.
C. Bayani ignored the deer.
D. Bayani played with the deer.
10. How did the story end?
A. happily B. sadly C. foolishly D. fearfully

SKILL B- GETTING THE GENERAL SIGNIFICANCE OF A SELECTION

Activity 5

Key words: blend carbon dioxide starch

Green Plant

A green plant is the only living thing that can make its own food. The green leaves make food for the plant.

To make food, the leaves combine water and carbon dioxide together. With the help of the sunlight, water and carbon dioxide are made into sugar or starch. Sugar and starch are the food of the plants.

Choose the letter of the correct answer:

1. What is the selection mainly about?

A. what plants give us	B. kinds of food
C. how the green plant make its food	D. The importance of plants
2. What is true according to the selection?
 - A. All plants can make their own food.
 - B. Only green plants can make their own food.
 - C. Animals cook food for the plants.
 - D. All green plants can be eaten.
3. What is needed by plants in making their food?
 - A. water and sunlight
 - B. oxygen
 - C. water, carbon dioxide, and sunlight
 - D. air and fertilizer

SKILL B- GETTING THE GENERAL SIGNIFICANCE OF A SELECTION

Activity 6

Key words: tending flock worried

The Lost Sheep

One day, a Shepherd was tending his flock of one hundred sheep. As night drew near, he counted his flock. He found out that one sheep was missing. He was very much worried, so he immediately left the ninety-nine sheep to look for the missing one. He did not stop until he found the lost one. When he found it, he was very happy.

Choose the letter of the correct answer:

1. What is a good title for this selection?
 - A. The Good Shepherd
 - B. The Lost Sheep
 - C. The Foolish Shepherd
 - D. The Lazy Sheep
2. Which sentence is true?
 - A. The Shepherd did not mind the lost sheep.
 - B. The Shepherd left the other sheep to look for the lost one.
 - C. It is foolish to look for one lost sheep.
 - D. The shepherd was not worried about the missing sheep.
3. Which of the following words best describe the shepherd?

A. responsible B. irresponsible C. obedient D. generous

SKILL B- GETTING THE GENERAL SIGNIFICANCE OF A SELECTION

Activity 7

Key words: destructive beneficial descending considered shortage

Insects

Some insects are very destructive to plants. The locust is a destructive insect. It is an enemy of the farmer. A swarm of locusts descending on a rice field is considered bad luck. It is because these insects can clear a rice field in one hour and eat all the grains of palay which are ready for harvest. When this happens, there will be a failure of rice crop, and shortage of food or hunger for the people.

Choose the letter of the correct answer:

1. What is a good title for the selection?

A. Destructive Insect	B. Shortage of Food
C. The Farmer's Enemy	D. The Lovely Insects
2. Why are locusts destructive?

A. They can clear a rice field in an hour.	B. They attack the poor farmers.
C. They eat other insects and small animals.	D. They kill people
3. The above paragraph is mainly about _____.

A. How to eradicate locusts	B. How locusts multiply
C. How locusts cause food shortage	D. How to kill plants

SKILL B- GETTING THE GENERAL SIGNIFICANCE OF A SELECTION

Activity 8

Key words: tempted aside orphanage

Linda Saves

Linda did not have enough money most of the time. But she knew that others had much less. So every time she had money and was tempted to buy an extra candy or another cold drink, she would stop herself and put the money inside a box which was marked, "For the Poor."

At the end of the year, she was surprised to see that her box was filled and was very heavy. She sent the box filled with money to an orphanage.

Choose the letter of the correct answer:

1. What kind of girl is Linda?

- A. hospitable B. charitable C. cooperative D. industrious

2. Did she pity herself for being poor?

- A. No. B. Yes. C. The story does not tell D. maybe

3. For what was the money given by Linda to the orphanage?

- A. To buy decoration for the orphanage
B. To buy medicine for the orphans
C. To buy Christmas gifts for the orphan
D. To buy appliances

SKILL C-PREDICTING THE OUTCOME OF A GIVEN EVENT AND MAKING INFERENCES

Activity 9 Exercise 1

Vocabulary: any longer consecration turned

HEARING MASS

One Sunday morning, Father, Mother, Teresita and Marivic went to mass. Marivic could not wait any longer for the mass to end. During consecration, she began to cry loudly. Everybody turned to look at her.

Choose the letter of the correct answer:

1. How did Mother feel when Marivic started to cry in the church?
 - A. excited B. angry C. embarrassed D. Sad
2. If you were Mother and Father, what would you do?
 - A. Spank Marivic.
 - B. Take Marivic out of the church.
 - C. Scold Marivic and finish the mass.
 - D. Never mind Marivic.
3. What should Father and Mother do with Marivic next time they go to mass?
 - A. Leave her in the house with somebody.
 - B. Let her play in the church patio.
 - C. Bring her along and not mind if she annoys the other people in the church.
 - D. Leave Marivic at home alone.

SKILL C-PREDICTING THE OUTCOME OF A GIVEN EVENT AND MAKING INFERENCES

Activity 10 Exercise 2

Vocabulary: bundle bosom lovingly

THE BIG, PINK BUNDLE OF JOY

Mother has been in the hospital for five days. She could hardly wait to bring the big, pink bundle of joy to the children. Mother held the pink bundle lovingly to her bosom while Father called for a taxi.

Choose the letter of the correct answer:

1. Where were father and mother?
A. in the hospital B. in the supermarket C. in the store D. at home
2. Why were they there?
A. Mother was sick
B. Mother delivered a baby
C. Mother met an accident
D. Mother had a check-up
3. What bundle of joy were they bringing home?
A. pig B. baby C. bag D. gift

SKILL C-PREDICTING THE OUTCOME OF A GIVEN EVENT AND MAKING INFERENCES

Activity 11 Exercise 3

Vocabulary: bookworm biographies dim

A BOOKWORM

Vicente is a bookworm.

He likes to read about almost everything. He likes to read adventure stories, nature stories, fairy tales, and biographies.

Whenever he gets hold of a

book, nothing could stop him from finishing it. However, he overworks his eyes by reading. He reads even when the light is dim.

Choose the letter of the correct answer:

1. What do you think will happen to Vicente if he continues reading in dim light?

- A. He will get tired of reading
- B. He will lost interest in books
- C. His eyesight will become poor, so he will soon need eyeglasses
- D. He will have a very clear eyesight.

2. What should Vicente do to save his eyes?

- A. He should not read at all
- B. He should read with a good light on
- C. He should read only books with big letters.
- D. He should always read in the dark

3. Will he have a good eyesight if he continue to overwork his eyes and read in the dark?

- A. Yes B .no C. maybe D. not sure

SKILL C-PREDICTING THE OUTCOME OF A GIVEN EVENT AND MAKING INFERENCES

Activity 12 Exercise 4

Vocabulary: scared dizzy

THE FERRIS WHEEL RIDE

Myrna was scared to ride on the ferris wheel. One fiesta day, her cousin asked her to ride on the ferris wheel. When the ferris wheel turned around, Myrna felt dizzy. She couldn't look down. She felt as if she was falling.

Choose the letter of the correct answer:

1. What do you think Myrna wished for?
 - A. She wished the ferris wheel would soon stop turning.
 - B. She wished that the ferris wheel would never stop turning.
 - C. She wished that she had not ridden on a ferris wheel.
 - D. She wished that the people will also shout.
2. Did Myrna enjoy the ride on the Ferris wheel?
 - A. Yes B. No C. maybe D. not sure
3. What would Myrna most likely do next time?
 - A. She would ride on a ferris wheel again.
 - B. She would never ride on a ferris wheel again.
 - C. She would not go on a carnival again.
 - D. She will be excited to ride on a ferris wheel again.

SKILL D READING TO FOLLOW PRECISE DIRECTIONS**Activity 13 Exercise 1**

Vocabulary: circle square rectangle

A DRAWING GAME

1. Draw a big circle between two small circles.

Draw your face in the big circle.

2. Draw you mother and mother's faces in the two small circles.

3. Draw a square around the three circles.

4. Draw a rectangle under the square.

Write your name, grade and section inside the rectangle.

5. Below the rectangle, print in capital letters the name of your school and draw a rectangle around it.

SKILL D-READING TO FOLLOW PRECISE DIRECTIONS

Activity 14 Exercise 2

Vocabulary: brought beef vegetables

ONE MARKET DAY

One Saturday morning, Mother went to market. She brought two large baskets with her. She bought 2-1/2 kilos of beef, 1 kilo of pork and 2 kilos of fresh fish. She also bought vegetables like cabbage, beans, tomatoes, onions, and carrots. She bought bananas, pineapple, and papaya, too.

Answer the following questions:

1. Box the word that tells when the story happened.

A. Saturday B. Sunday C. Monday D. Tuesday

2. Underline the word which tells where Mother went.

A. church B. school C. market D. office

3. Write the number of things she bought.

4. Encircle the number of baskets she brought to market.

A. 10 B. 11 C. 2 D. 5

5. Draw the vegetables she bought

SKILL D-READING TO FOLLOW PRECISE DIRECTIONS**Activity 15 Exercise 3**

Vocabulary: triangle vertical horizontal

DRAWING SHAPES

1. Draw a big rectangle. Draw a triangle over the big rectangle.
2. In the middle of the rectangle, draw two vertical lines.
3. In the middle of two vertical lines, draw a small circle inside a bigger circle.
4. Draw a square on each side of the vertical lines. Draw four horizontal lines inside each square.
5. What have you drawn? Label the picture.

SKILL D-READING TO FOLLOW PRECISE DIRECTIONS

Activity 16 Exercise 4

Vocabulary: bloom cluster tanning tubelike

GOLDEN SHOWER

One of the most beautiful flowering trees is the golden shower. It is found in parks and in the gardens. It got its name from its golden-yellow flowers that bloom in clusters. This tree is useful as well as beautiful. Its bark is used for tanning leather and for medicine. It also bears a tubelike fruit. The pulp of the tubelike pod is also used for medicine.

1. Copy the name of the tree.
2. Write the color of its flowers and draw a square around it.
3. What word best describes how it blooms?
Underline the correct answer.
Singly pairs clusters
4. Name the parts that are used for medicine.
5. The golden shower is beautiful, but not useful. Answer with True or False.

SKILL E-READING EXERCISES FOR SPEED AND COMPREHENSION

Activity 17 Exercise 1

OUR FOREFATHERS

In the olden days there were no churches in the Philippines. Although there were no churches, our forefathers knew how to pray. They prayed in many places. Most often they prayed in their homes. They believed in a great good called *Bathala*, they believed that *Bathala* was the creator of all things. They worshipped him. They prayed to him.

Our forefathers held religious feasts in the house of their headman or chief. Usually, a feast lasted for several days. All the people of the barangay attended. They would hang a large lamp at the center of the house and many small ones on the posts. Drums and gongs provided music. As part of the celebration, the people danced. They would beat drums for as long as the feast lasted. The people, young or old, enjoyed the religious festivities.

Activity 17 Exercise 1

OUR FOREFATHERS

TEST QUESTIONS

Copy the letter of the correct answer.

- When were there no churches in the Philippines according to the selection?
A. for many years B. in the olden days C. for years
- What is the selection about?
A. religion of our forefathers
B. the musical instruments of our forefathers
C. the enjoyment of our forefathers
- Where were the feasts held?
A. in the forest B. in the chief's house C. in the plaza
- Who attended the feasts?
A. all the children B. all the soldiers C. all the people
- How long did their feasts last?
A. a day B. a night C. several days
- What instruments were used to provide music?
A. flutes B. gongs and drums C. guitars
- What were hung on the posts?
A. pretty pictures B. small flowers C. small lamps
- What can you say about our forefathers?
A. lazy B. religious C. godless
- Copy the letter of the word that tells to whom our forefathers prayed.
A. anitos B. Bathala C. spirits of dead ancestors
- Where did our forefathers often pray?
A. in the church B. in their homes C. on the streets

SKILL E-READING EXERCISES FOR SPEED AND COMPREHENSION**Activity 18 Exercise 2****EARLY MANHOOD OF FATHER GOMEZ**

It had been raining very hard for three days and the streets were flooded. Mariano, as Father Gomez was then called, had to stay home. His father looked at the water and said, "The roads are not safe to travel on. The children must stay home today."

The rain continued up to Sunday. The people could not go out to the streets. It was very hard to go to the church. They could not even go to the market to buy the things they needed.

"Where is Mariano?" Mother asked. Mariano's parents looked for him in the house. Finally, his father exclaimed, "There he is!"

Mother looked out of the window. She saw Mariano on a wooden raft.

"Your young man is going to the church." Father said. "Rain will not stop him from doing his duty."

Activity 18 Exercise 2

EARLY MANHOOD OF FATHER GOMEZ

TEST QUESTIONS

Copy the letter of the correct answer.

1. When did the story happen?
 - A. A day during the Christmas season
 - B. A day during the rainy season
 - C. A day during the summer month
2. Which were not safe?
 - A. the buses B. the jeeps C. the roads
3. How long did the heavy rain last?
 - A. one day B. two days C. three days
4. Who could not be found in the house?
 - A. Mariano B. Father C. Mother
5. Where did they find Mariano?
 - A. on a bicycle B. on a raft C. in the kitchen
6. Where was Mariano going?
 - A. to market B. to church C. to school
7. Why must the children stay home?
 - A. The streets were flooded.
 - B. The rain was strong.
 - C. They were sick.
8. Who looked for Mariano?
 - A. his mother B. his father C. his parents
9. What kind of a young man was Mariano according to the story?
 - A. sickly B. strong C. religious
10. What did Mariano become later?
 - A. doctor B. lawyer C. priest

SKILL E-READING EXERCISES FOR SPEED AND COMPREHENSION

Activity 19 Exercise 3

INSECTS

There are more than half a million kinds of insects. The kinds of insects outnumber the kinds of all animals put together.

Insects live in almost any kind of habitat. There are many in the sea, but they are found almost everywhere in freshwater and on land.

All insects have six legs and one pair of feelers. All insects are covered with a waterproof substance called chitin. Most insects have wings. Their bodies are divided into three parts: the head, the thorax, and the abdomen.

Most insects crawl, hop, swim, jump or walk. But flying is their usual way of getting about. Some can fly very fast. The dragonflies one of the fast fliers.

Some insects have pair of wings. Some have one pair. Some have none at all. It is safe, therefore, to think that insects differ in shape, size and color.

SKILL E-READING EXERCISES FOR SPEED AND COMPREHENSION

Activity 19 Exercise 3

INSECTS

TEST QUESTIONS

Copy the letter of the correct answer.

1. There are more than _____ kinds of insects.
A. thousand B. half a million C. hundred D. millions
2. The selection is mainly about _____.
A. Uses of Insects B. Dangers of Insects
C. Nature of Insects D. Insects food
3. Insects live _____.
A. in dark places B. in almost every place C. in trees D. in soil
4. Insects usually move about by _____.
A. crawling B. hopping C. flying D. walking
5. No insects move about by _____.
A. jumping B. slithering C. swimming D. Flying
6. The bodies of insects are divided into _____ parts.
A. four B. two C. three D. six
7. The dragonfly _____ very fast.
A. jumps B. flies C. runs D. swims
8. All insects have _____ of feelers.
A. one pair B. two pairs C. three pairs D. four pairs
9. _____ insects have two pairs of wings.
A. All B. Some C. Young D. Old
10. Which of these is not true about insects? Copy the letter of your answer and encircle it.
A. All insects have wings
B. The body of insects have 3 parts.
C. Insects have six wings.
D. All insects can swim.

SKILL E-READING EXERCISES FOR SPEED AND COMPREHENSION

Activity 20 Exercise 4

MAN'S FIRST CLOTHES

They made clothes from animal skins.

The earliest true clothing of man was made of animal skin, grass or bark of trees.

About 100,000 years ago man used the skin of bears, goats or buffaloes for his clothing. He scraped the inside of the skin and hung it dry. When the skin was dry, he made it soft by rubbing it with fat and by beating it with his hand. Then he cut the soft skin to pieces with sharp stone knife. He used rough needles made of bones and thread made of strong plant fiber to sew the pieces together.

The prehistoric man in warm countries, where plants and trees grew in abundance, fashioned his clothing out of grass and bark of trees. Clothes made of animal skin lasted longer than those made of grass and bark of trees. But the clothes made of grass were cooler, more comfortable and lighter.

SKILL E-READING EXERCISES FOR SPEED AND COMPREHENSION

Activity 20 Exercise 4

MAN'S FIRST CLOTHES

TEST QUESTIONS

Copy the letter of the correct answer.

- The story is mainly about _____.
A. animal skin B. man's first clothes C. bark of trees D. food
- The uncivilized prehistoric man wore clothing maybe mainly for _____.
A. attraction B. modesty C. protection D. fashion
- The animal skin was hung to _____.
A. dry B. soften C. harden D. melt
- The skin was made soft by _____.
A. drying B. beating C. cooking D. soaking
- the needles were made of _____.
A. stone B. bone C. glass D. wood
- Threads used were made of _____.
A. plant fiber B. plant roots C. plant seeds D. plant leaves
- Where do you think clothes made of animal skin mostly worn?
A. in cold countries B. in warm countries
C. in all countries D. in all countries
- Clothes made of animal skin _____.
A. was weak B. was durable C. was cool D. was warm
- Animal was cut to pieces by a _____.
A. sharp bolo B. sharp razor C. sharp stone knife D. scissors
- About how many years ago was this period? Write your answer in words.

Post Assessment

FORMATIVE ASSESSMENT AFTER ACTIVITY 10

Name: _____ Grade & Section: _____ Score _____

SKILL A- NOTING DETAILS

WHY WE COOK THE FOOD WE EAT

We cook our food for three reasons- to make food palatable and appetizing, to soften hard and tough foods, and to kill any microbe that may happen to be in the food.

There are many ways in preparing food. Food can be fried, boiled, broiled, roasted, baked, steamed, stewed, or sauteed. They can be well cooked or half cooked.

It is easier to digest food that is well cooked. But there are foods that are easier to digest when half cooked than when well cooked. Meat and liver for example, are easier to digest when half cooked. But certainly, they taste better when well cooked.

Many vegetables are also easier to digest when well-cooked but some are eaten raw.

Write the letter of the correct answer in the blank.

1. We cook our food _____.
 A. For no reason at all
 B. For one main reason
 C. For three good reasons
2. Hard food becomes _____ when cooked.
 A. Harder B. soft C. Indigestible
3. By cooking, the microbes in the food _____.
 A. Multiply B. Are killed C. Disappear
4. Cooked food looks _____.
 A. Appetizing B. Frozen C. Rotten
5. Generally, cooked foods are more _____.
 A. Digestible B. Indigestible C. Nutritious

6. Meat and liver are easier to digest when _____.
A. Not cooked B. Half cooked C. Thoroughly cooked
7. Meat and pork certainly taste better when _____.
A. Raw B. Well-cooked C. Overdone
8. Vegetables are usually easier to digest when _____.
A. Raw B. half cooked C. Well cooked
9. Frying, boiling, broiling, roasting, baking, steaming, sautering, and stewing are ways of _____.
A. Preparing food B. Buying food C. Eating food
10. Lettuce is a vegetable that is eaten _____.
A. Raw B. Well-cooked C. Ripe

SKILL B- GETTING THE GENERAL SIGNIFICANCE OF A SELECTION**EXERCISE 7**

Nestor and Serafin were both thrown together inside a prison cell which had only one small window. One night, they both looked out of their barred window.

"What do you see, Nestor?" asked Serafin to his companion.

"Oh, nothing except the mud right under this window," answered Nestor.

"Ah, but I see a star!" exclaimed Serafin looking at the same muddy water reflecting a twinkling light.

1. What does Serafin feel in his heart?
A. hope B. fear C. disgust
2. What is a good title for the selection?
A. What Men Do in Prison
B. One Lonely Night
C. Beauty is in the Eyes That See
3. Who has a better outlook in life?
A. Nestor
B. Serafin
C. none

SKILL C PREDICTING THE OUTCOME OF THE GIVEN EVENT AND MAKING INFERENCES

WHY HORSES NEED IRON SHOES

Wild horses do not need iron shoes to be able to run fast. But for work horses, shoes are necessary because the hard roads along which they are driven wear away the horn of the hoofs. The hoofs become dry and unhealthy through lack of moisture.

On their native pastures, the wild horses bathe their feet every morning with dew on the grass and the moisture soaks in the horn of the hoofs, and keeps them healthy and tough. Dew is a good ointment for horses' hoofs and it has been found that horses which are kept at night in dewy fields have such healthy hoofs that they can do a great deal of work without shoes. But as long as horses continue to be driven or ridden along hard roads and stony streets, they will need iron shoes.

1. What will happen if work horses do not wear iron shoes?
 - A. They will run faster.
 - B. They will work better.
 - C. Their hoofs will be worn out.
2. What should be done to horses at night?
 - A. Let them work overtime.
 - B. Let them roam on the grass.
 - C. Let them stay in their stables.
3. If horses are well taken care of, what will become of them?
 - A. They will work better.
 - B. They will become wild.
 - C. They will grow longer manes.

SKILL D- READING TO FOLLOW PRECISE DIRECTIONS**FATHER WAS LATE**

Mother and the children had been expecting Father for supper. They watched TV while waiting for him. When the program was over, it was already nine o'clock. Mother and the children looked at each other. Father had never been late for supper before.

1. How do you think they feel?

A. Sad B. worried C. excited

2. Who was late? Write his name in a square.

3. Who waited for him? Underline your answer.

Mother the children mother and the children

4. Draw a clock and copy the time the story happened?

5. Write the word which tells how many times Father had been late before.

SKILL E-READING EXERCISES FOR SPEED AND COMPREHENSION

ICE CREAM

No one knows when or where ice cream was first made. Today, ice cream is one of the best liked foods in the Philippines.

Ice cream is one of the nourishing foods we eat. It also tastes good. It is more than three-fourths milk and cream. It may have fruits like mango, atis, langka, and coconut or pineapple. It may have nuts, too. Egg and gelatin make ice cream smooth. Some ice cream flavors are vanilla, chocolate and strawberry. Ice cream makers advertise and make different flavors of ice cream every month. Nuts, fruits and flavorings are bought from all over the world.

Much ice cream is eaten as plain dessert at meals. A great deal of ice cream goes into ice cones, milk shakes, ice cream sodas, ice cream bars and ice cream cups. Ice cream is also sold by gallons and half gallons. It is served in almost all parties.

Copy the letter of the correct answer.

1. What is ice cream mostly made of?

- A. fruits and eggs B. milk and cream C. nuts and gelatin

2. What is usually used to make the ice cream creamy and smooth?

- A. water B. sugar C. gelatin

3. Ice cream was first made in the Philippines

- A. True B. False C. Does not tell

4. What can you say about the ice cream?

- A. one of the nourishing foods we eat
B. eaten as one of Filipino dishes
C. best-liked food only in the Philippines

5. Which of the following is not listed as a flavoring for ice cream?
- A. chocolate B. strawberry C. tea
6. what is the proportion of milk and cream in an ice cream?
- A. one-fourth B. three-fourths C. one-half
7. Why do you think do ice cream makers put fruits and flavoring to ice cream?
- A. to make it more expensive
- B. to make it thick
- C. to make it more palatable
8. How is ice cream eaten most of the time?
- A. as plain dessert after meals
- B. as melted drink on glass or cups
- C. as part of breakfast
9. In what form is ice cream bought?
- A. ice cream bars and scoops
- B. melted on glass or cups
- C. mixed in fruit salad
10. What is the selection all about?
- A. dessert B. ice cream C. best Filipino food

FORMATIVE ASSESSMENT AFTER ACTIVITY 20

Name: _____ **Grade & Section:** _____ **Score** _____

SKILL A- NOTING DETAILS**THE LEGEND OF THE POINSETTIA**

When the poinsettia begins to bloom, we are reminded that Christmas is near. As such it has become a Christmas symbol. Poinsettias begin to bloom in November until March.

The poinsettia is an odorless flower with brilliant red color. Its flowers are actually leaves. How the poinsettia came about is an interesting legend.

It happened during the time of the Holy Wars or Crusades when the Christian knights were fighting the Mohammedans to regain the Holy Land.

In one of the holy wars, a brave knight climbed the walls surrounding the Holy City to open the gates so that the other Christian soldiers could enter. A Moorish soldier saw him and shot him with an arrow. As he fell over the wall, his blood dropped on a shrub which later bore red flowers.

Write the letter of the correct answer in the blank.

1. Poinsettias bloom during the _____.
 A. Christmas season B. dry season C. summer months
2. Poinsettias have become a _____.
 A. Christmas symbol B. bridal shower C. national flower
3. The poinsettia is _____.
 A. odorous B. odorless C. fragrant
4. It begins to bloom in _____.
 A. December B. March C. November
5. The brilliant red petals are actually _____.
 A. leaves B. seeds C. stems
6. The poinsettia came to have red color during _____.
 A. World War I B. the Holy War C. the Japanese-Filipino War

7. Another name for those wars was the _____.
A. Civil War B. World War C. Crusades
8. The Christians were fighting against the _____.
A. pagans B. Mohammedans C. Protestants
9. A Moorish soldier shot the knight with a/an _____.
A. dart B. arrow C. gun
10. The poinsettia is a _____.
A. vine B. shrub C. tree

SKILL B- GETTING THE GENERAL SIGNIFICANCE OF A SELECTION

Exercise 8

The food of fishes is as varied as the food of land animals. Many fishes eat other fish. Some eat only crustaceans such as crabs, shrimps, and sea mantis.

Many other fishes have great strong teeth for crushing the shells of oysters, clams, and barnacles which they feed on. Some kinds of fish eat water plants called “lumot” and “digman”.

Young fishes and some species of large fishes feed on plankton. Plankton is the name given to microscopic plants and animals that live in rivers, lakes, and seas. Plankton is also called “pasture of the sea”.

1. What is the selection about?

- A. kinds of fish B. food of fishes C. food value of fish

2. Which sentence is true?

- A. Fishes have different kinds of food.
B. Fishes do not eat other fishes.
C. Fishes eat only small plants and animals.

3. Why is plankton called “pasture of the sea”?

- A. They look like grazing meadows on the land.
B. They serve as food for people.
C. They serve as food for many kinds of fish

SKILL C- PREDICTING THE OUTCOME OF THE GIVEN EVENT AND MAKING INFERENCES

A MOTHER'S EXPECTATION

Mrs. Cruz was very proud of her son, Juanito. Since Juanito was in Grade One, he had always topped his class. He had been a gold medalist for four years. Now, Mother was expecting another gold medal for Juanito.

A few weeks before the closing of school, Juanito got sick. He missed most of his lessons. Luckily though, he passed all his tests.

On Awards Day, Mother was waiting to be invited. But she was not.

1. How did Mother feel?
 - A. embarrassed
 - B. surprised
 - C. disappointed
2. Why was Mother not invited?
 - A. Juanito would not receive any medal.
 - B. Father would pin the medal on Juanito
 - C. Juanito would pin the medal on himself.
3. Did Juanito pass the tests?
 - A. Yes
 - B. No
 - C. Maybe

SKILL D- READING TO FOLLOW PRECISE DIRECTIONS**A SURPRISE FOR ROLANDO**

It was Wednesday morning, Mother prepared some nice dishes while Ariel cleaned the house. Armin arranged the furniture and Cecille arranged the curtains. They helped each other cheerfully. They wanted to surprise their youngest brother, Rolando, who's celebrating his eleventh birthday.

In the afternoon, they all waited at the porch. Soon Rolando's friends started to arrive.

1. Write the name and age of the boy who was celebrating his birthday.

2. Box the name of the person who prepared the dishes.

3. Write the number of children in the family and their names.

4. Is Rolando the eldest child? If not, write the opposite word of eldest.

5. Write the part of the house where they waited.

SKILL E-READING EXERCISES FOR SPEED AND COMPREHENSION

THE OCTOPUS

The octopus is one of the strangest-looking animals that ever lived. It has two large eyes and snake-like arms that made it frightful to look at. Its name, octopus, means “eight” arms. These eight powerful arms, called tentacles are joined around its mouth.

This sea animal is also called “devil fish”. However, it is not a fish. The sea animal belongs to a class called mollusks. It feeds on other sea animals like crabs, oysters and shrimps. On the under sides of its tentacles are suckers. Using these suckers, the octopus grasps other sea animals and takes them to the mouth.

Octopuses are different from each other in size. Some are just as small as a one-peso coin. Others are as large as a beach umbrella.

Beneath the head of the octopus is a funnel. This funnel is very useful to the octopus. When attacked by other animals, this funnel gives off a black liquid which hides the octopus.

Copy the letter of the correct answer.

1. The octopus is an animal that lives _____.
A. in the air B. on land C. in the water
2. The octopus is _____.
A. funny B. nice-looking C. strange-looking
3. The arms of the octopus are like _____.
A. snakes B. stairs C. stems
4. The word octopus means _____.
A. five arms B. eight arms C. ten arms
5. Another name for it is _____.
A. angel fish B. devilfish C. snake fish
